

Administrative Update
February 10, 1988

Public Works Truck - We received notification on February 8, 1988 that the Ford Motor Company has issued a recall of Model 350 1988 trucks for problems with the front ends which would result in shimmying(!) The truck will be taken to Tousley Ford to see if there is anything they haven't tried yet.

Staff -> Repair repairs don't work, maybe class action

Tree Removal Contract - In November, the Council agreed to staff's recommendation for a single bid for the City's Tree Removal services. According to Attorney Gedde, due to the expected dollar amount of services, a formal bid is not necessary. A simple Request for Proposals was prepared and mailed to Tree Removal Firms on February 8, 1988.

Recreation/Community Services Director - As of February 8, 1988, 31 applications have been received. Interviews with three to five candidates (?) will be scheduled next week. The interview committee will consist of Linda McLoon, Steve Emerson, Pat Bush and Alan Stedman. Staff will be involved in the final recommendation to the Council.

Cable Pornography - Council and Staff members have received letters from people concerned about pornography on a North Central "Pay Per View" channel. The Cable Commission is looking into this (literally!). Some of the questions the Commission is trying to get answered are: (1) does censorship violate the Constitutional 1st Amendment's freedom of speech right? (2) did the original franchise agreement prohibit pornography? (3) are the movies being shown hard core pornography or soft core erotica as the cable company calls them? See attached letter from John Eddy, Cable TV North Central.

1987 Budget Review - Staff is preparing an end of the year summary. It should be ready for the next meeting.

Billboards - The City Council passed an ordinance in 1980 prohibiting billboards in the City. Existing billboard owners were give five (5) years to comply. In 1985, the Council decided not to enforce the Ordinance for the billboard on Northhome Center due to a likely redevelopment. Since no redevelopment is currently planned, staff sent a letter to the owner of the Northhome Center giving a thirty (30) day notice to remove the sign. No response has been received at this time.

Upcoming Meetings

(a) Saturday, February 20, Council Legislative Workshop. Both John Marty and John Rose are available. We will meet with both, separately.

*8:30 A.M. - John Marty

→ 10:00 A.M. - John Rose

(b) Thursday, February 11 at 6:00 P.M.
Fire Department Relief Association
Board of Trustees Meeting

*Th. Feb. 19
4:00*

Development Districts - A recommendation for amending the development districts will be on the February 24th Council agenda. Gedde, Apfelbacher and Wiessner have met with Jim Holmes, the author of the original Tax Increment Legislation, to clarify the intent of the law.

maybe not

Cleveland Avenue - We received notice that on January 26th the County Board approved our request to post the east side of Cleveland Avenue as a "No Parking-Tow Away Zone".

Lift Station - 1666 Coffman, We have experienced problems with both pumps in the last couple of weeks. Vince is working on the problem.

Office

Ms. Janet Weissner
Falcon Heights City Hall
2077 W Larpenteur Avenue
Falcon Heights, MN 55113

Dear Ms. Weissner:

Recently, an organization called Project Clean-up has been distributing material regarding the adult-themed programming appearing on Cable Plus 34, one of our two, pay-per-view services. We thought it would be helpful if you knew the facts surrounding Cable Plus 34.

Adult-themed material comprises one half of one percent of our total program hours. It is only a part of a wide range of programs we offer, which include classic movies, children's programs, nature shows, documentaries, religion, news, sports and public affairs. The adult-themed material is available only after 10:30 p.m., when children are not normally present. Exhaustive security measures are in place to make sure that the programming is available only if a subscriber requests it. It cannot be inadvertently received.

Adult-themed programming is available only on Cable Plus 34, a pay-per-view service. A pay-per-view program must be specifically requested by the subscriber on a per-event basis and cannot be viewed inadvertently.

Cable Plus technology requires a subscriber to order each and every time they wish to view a movie, therefore, no adult-themed material can be received, unless the subscriber requests that it enter the home. This is unlike premium services such as HBO or Showtime, which are ordered once and all movies are received until disconnection of the service is requested.

Hauser Communications, Inc.

Page Two

Subscribers who choose to secure their television against the ordering of adult-themed programming, may do so at no charge. Each converter has a parental lock-out device. The subscriber can delete a designated channel by turning the key to the proper position and then removing it from the converter. This prevents the channel from being viewed until the key is restored and the lock is returned to the proper position. Only the individual with the key can order and receive the adult-themed programming.

Should a subscriber wish to totally remove the capacity to receive an adult-themed movie, they can request Cable TV North Central to electronically program their converter, so it refuses to allow anyone to order and receive adult-themed programming. Before Cable TV North Central will reprogram the converter, the subscriber must state a four-digit, security code that was created by the subscriber, at the time of the original de-program request.

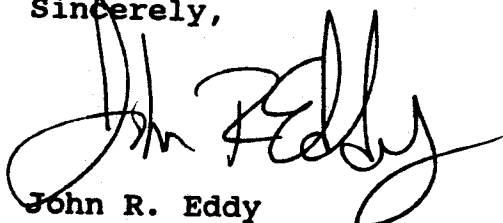

Information concerning this process has been distributed to the subscribers in their program guide. Subscribers choose adult-themed programming by reviewing titles in the monthly programming guide.

We do not believe this programming to be pornographic in nature. No X-rated films are offered. All films are previewed and if necessary, edited to make sure they are not pornographic, but fall into the category of soft erotica.

It is the legal right of our subscribers to decide for themselves what they wish to view in the privacy of their own homes. As importantly, Cable TV North Central is providing the material they wish to see in a responsible manner.

If you should have questions regarding the above, please feel free to contact either myself, or our Director of Public Affairs, Kathi Donnelly-Cohen at 483-3233.

Sincerely,

John R. Eddy
Chief Operating Officer

'Sno foolin'...the fair keeps goin'

K

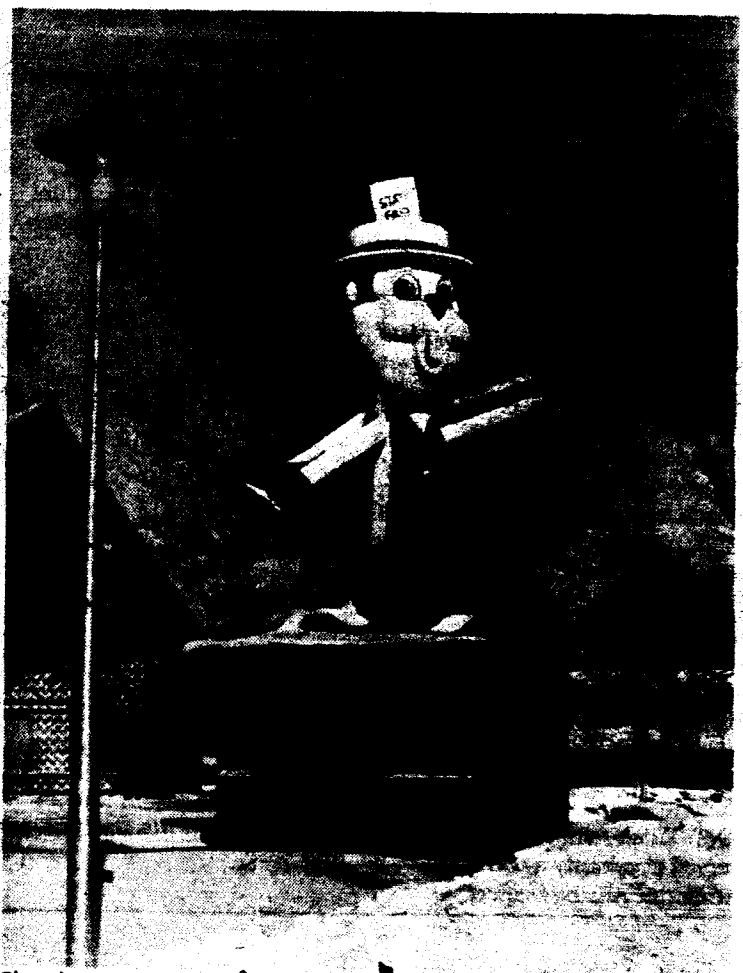

Photo by Truman Olson
The Minnesota State Fair gopher stands amid piles of snow in the apparently empty fairgrounds.

By Paul Rabie

The Minnesota State Fair: Park residents are acutely aware of it during its annual 12 day run, but for the other 353 days of the year, it receives little attention.

While much quieter than at fair time, the fairgrounds are by no means unused during the off-season. There are about 50-60 events which draw 700,000 people throughout the year, said Gerald Hammer, who is in charge of communications for the fair. The most common events are livestock shows, car shows, auctions or sales. But activities can be more diverse; if there's "anything you can do in a building, we've done it," said Hammer.

The greenhouses are open to the public, and are maintained by William Hermes, who lives on the fairgrounds. He says they do not receive many visitors because, "most people don't even know we exist. They think the plants are shipped in or something." The greenhouses have existed for 75 years.

The other attraction which is open on a regular basis is the coliseum. Open skating is usually available weekdays from 11:30 a.m. to 1 p.m. and weekends from 3:30 to 5:30 p.m. Local colleges schedule hockey games and practices there, and the building is available for rent. Call 642-2209 for coliseum information.

Although the off-season use by 700,000 people hardly compares with last year's fair-time record of 1.6 million, Hammer says that off-season use is growing. More event information is available at 642-2200.

Falcon Heights blaze leaves family homeless

By Harvey T. Rockwood

Fire gutted a Falcon Heights home Friday afternoon, leaving a family of three homeless.

About 30 firefighters from the Falcon Heights and Roseville fire departments responded to the fire at 2135 Hoyt Ave., which was reported at about 2:30 p.m. by a passing Medicine Lake Line bus driver.

"The driver just happened to be passing by and he noticed smoke puffing from the house," said Gary Iverson, Falcon Heights fire marshal.

"The first deputy on the scene reported the building was engulfed. Flames were shooting out of the windows when the first fire units arrived."

None of the Richard and Glenda Martin family was home at the time, according to Iverson. No injuries were reported, but a family cat died in the fire, he said.

Iverson said he understood arrangements had been made to provide housing for the Martins and their son, Douglas.

Staff Photo by Richard Sennott

Cold enough for you, Charlie?

Two-year-old Devin Doble of Falcon Heights met Como Charlie, a local groundhog, at the Como Zoo Tuesday. Meanwhile, in Punxsutawney, Pa., Punxsutawney Phil predicted an early thaw.

State Fair had multi-million dollar impact on area's economy

Focus
1/29/88

The year-round operation of the Minnesota State Fair resulted in a total economic impact of \$69 million to the Twin Cities area in 1987. A study conducted by the Minneapolis office of Peat Marwick Main and Co. found that the Falcon Heights-based

State Fair accounted for direct expenditures last year of \$26 million in the Twin Cities and another \$23 million in the surrounding area. The study confirms a fact that has long been apparent to the management of the fair, said Mike Mafron, general

manager of the exposition. "The fact is that the State Fair annually delivers a profound economic benefit to the state and to the local metropolitan area," the study found. In addition to the overall economic impact, the study shows the State Fair opera-

tions resulted last year in total local employment of 4,900 people, accounted for \$3.1 million in wages and benefits and generated \$6 million in taxes paid to the state. To operate in 1987, the State Fair spent \$7.2 million in the area. Among these expenses

were \$2.55 million in wages and benefits for the fair's 2,200 seasonal and 40 full-time employees, \$3.4 million for goods and services purchased from local businesses and more than \$425,000 in cash prizes paid to winners of the fair's various contests.

RE: Stratford Office Park Update

This week we received notification by Commercial State Bank that Stratford is in default of their mortgage for the Office Park, Tom Gedde has been in contact with bank representatives and will have an update at the February 26th meeting.

I have met with Planner, John Uban, and Terry Maurer regarding the current status of development and alternative land use. I have also started to discuss the area with other developers.

MINUTES
REGULAR CITY COUNCIL MEETING
JANUARY 27, 1987

Mayor Baldwin opened the meeting at 7:00 P.M.

ALL MEMBERS PRESENT

Wallin, Ciernia, P. Chenoweth, Bush, and Baldwin. Also present were Wiessner, Gedde, and S. Chenoweth.

MINUTES OF JANUARY 13, 1988 APPROVED

Council approved the Minutes of January 13, 1988 as corrected.

CONSENT AGENDA APPROVED

Council approved the following Consent Agenda:

1. Fire and Ambulance Reports
2. Disbursements through January 27, 1988
Sinking Fund
3. Payroll 1/14/88 - 1/27/88
4. Statement from Jensen, Hicken, Gedde & Soucie -Legal Services for
December, 1987, \$1,964.40
5. Final Billing from Briggs & Morgan, \$5,296.51
6. Statement from Maier Stewart for Engineering through December 26,
1987, \$323.02

PRESENTATION BY DR. MIKE VALENTINE, DIRECTOR OF AIR QUALITY, POLLUTION CONTROL COMMISSION - CARBON MONOXIDE MONITORING AT LARPENTEUR/SNELLING

Dr. Valentine explained that Larpenteur/Snelling was selected to be monitored due to the high traffic volume and that the carbon monoxide concentration at the intersection was fourth highest among those monitored. He indicated that this volume is well below the alert level and should not require susceptible persons to stay indoors. Dr. Valentine mentioned some possible remedies for lowering carbon monoxide such as requiring vehicles be tested for emissions (many vehicle owners tamper with catalytic converters, etc.), alternative fuels - alcohol blends, and mandatory mass transit.

RAMSEY COUNTY REQUESTED TO PREPARE FEASIBILITY STUDY ON TRAFFIC SIGNAL AT LARPTENTEUR/PRIOR AND CLOSING MEDIAN AT GORTNER

Baldwin explained that over the years several meetings have been held with representatives of Hewlett Packard, University of Minnesota, Ramsey County and the City, and at the most recent meeting held January 20th, no agreement could be reached on a solution to the traffic hazard at the intersection of Gortner/Larpenteur/Prior. He felt that the situation has gone unresolved for too long and the hazard is bound to grow as traffic increases. Based on options prepared by Ramsey County, the city has only one option which can be implemented without University participation, i.e. close the median at Gortner and placement of a traffic signal at Prior and Larpenteur.

ORLYN MILLER, PLANNER, UNIVERSITY OF MINNESOTA, stressed that closing the median will create a greater hazard on Cleveland and cause considerable risk for their farm machinery getting access to the test plots; however, the University does have strong objections to giving up a portion of the

research fields to allow aligning Gortner with Prior which was the option preferred by the engineers and Council. He suggested that Council begin the planning process by having a feasibility study started which would allow the University time to study the matter further. DAVE ROESER, FINANCE MANAGER, HEWLETT PACKARD, commented on the meetings held over the past three years and the large number of accidents in the area. He stated closing the median at Gortner would also affect access to their building; however, they are in favor of going ahead with the plan to signal Prior and close the Gortner median to limit further accidents.

Council discussed issues such as requesting the County to include signals at Prior in their feasibility for upgrading Larpenteur, closing of the Gortner median, possible date of signal installation, and the advisability of informing the County that the decision to proceed with the Prior signal might change based on the outcome of future University discussions. After further discussion, Chenoweth moved that Ramsey County be requested to prepare a feasibility study for the traffic signal at Prior and closing of the median at Gortner. Motion carried unanimously. Wiessner was directed to draft a letter to Ramsey County requesting the feasibility study based on items discussed at this meeting, such study to be completed in time for the 1989 construction season.

ATTORNEY & FISCAL CONSULTANT TO PREPARE RESOLUTION COMBINING DEVELOPMENT DISTRICTS - TO BE REVIEWED AT 2/10/88 MEETING

Council discussed the possibility of combining the two existing development districts and possibly expanding the district to include areas where there might be future development or, perhaps, the entire city. Following the discussion, Chenoweth moved that the Attorney and Fiscal Consultant be directed to develop a resolution combining the existing two development districts with expansion of the district as deemed appropriate. Motion carried unanimously. The resolution will be reviewed at the February 10th meeting.

ROC-A-FELLAS IN COMPLIANCE ON CONDITIONAL USE - NO ACTION NECESSARY AT THIS TIME

Wiessner presented to Council the letter previously requested by Council regarding Roc-A-Fellas' compliance with stipulations in the original conditional use, and explained the letter had been delivered January 26, 1988. Council agreed that the letter (a copy of which is on file in the Clerk's Office) indicated a showing of a good faith effort in solving the problems, however, requested the matter be discussed again in June when business license renewals are due.

PUBLIC HEARING SCHEDULED FOR 7:15 P.M., 2/24/88 TO CONSIDER AMENDING ZONING CODE TO ALLOW THE ESTABLISHMENT OF A RETAIL LIQUOR STORE IN A B-2 BUSINESS DISTRICT.

Wiessner explained the City has received an inquiry from individuals interested in applying for a license for a liquor store and the present Zoning Code does not list a retail liquor store as a permitted use even though the liquor section of the code does provide for one "off sale" retail liquor license. Council referred the item to the Planning Commission and scheduled a public hearing for 7:15 P.M., February 24, 1988.

TUITION POLICY ADOPTED

Following a short discussion and some wording changes, Ciernia moved adoption of the latest draft of the Tuition Reimbursement Policy. Motion carried unanimously.

APPROVAL OF EMPLOYEE BENEFIT POLICY FOR RETIRED CITY EMPLOYEES

Following a discussion and an amendment to the proposed policy, Chenoweth moved adoption of the policy as recommended by Wiessner. Motion carried unanimously.

STRATFORD OFFICE PARK UPDATE

Baldwin commented on the fact that Stratford has not as yet presented a status report as agreed upon at the November 18, 1987 meeting.

Gedde assured Council that Stratford will continue to be responsible for a shortfall as stipulated in the development agreement even though funds may be transferred from one tax increment district to another. He also informed Council he had met with representatives of Stratford and their attorney and felt it would be advisable to discuss the matter in detail in an executive session since they have not closed on the existing buildings, have started no new construction, and the city is likely to become involved in litigation.

MEETING RECESSED FOR EXECUTIVE SESSION ON STRATFORD OFFICE PARK

Council agreed an executive session was necessary and recessed the council meeting at 9:25 P.M. to hold such a session.

ADJOURNMENT

Following the executive session the regular council meeting was adjourned at 10:15 P.M.

PETERSON, FRANKE & RIACH STATEMENT

Prosecuting Service

Month of November, December, 1987: \$1,742.67

TT Vince
re: Parks+Rec C.

TT Tom G
re: Pl. C.

Agenda:
1. **Consent Minutes**

2. **Planning Commission and Park and Recreation Commission**

3. **Staff Report**

4. **Public Hearing on the Proposed Park and Recreation**

5. **Park and Recreation Commission Report, 11/11/2008**

6. **Planning Commission Report, 11/11/2008**

5

MINUTES

PARK AND RECREATION COMMISSION
January 11, 1988

Members Present: Tom Montain, Kirsten Eckberg, Paul Nelson,
Pat Bush, Connie Lasser, Ardis Hutchins,
Paul Ciernia, Council Liaison

Members Absent: Bob Gehrz

Visitors: Vince Wright, Jan Wiessner

1. Park Director Position

Jan Wiessner explained her recommendation for filling this position. She feels that adding additional duties in the area of Cable TV work as well as assisting with Community information would go well with the current involvement with recreation. The suggested title would be Director of Recreation and Community Services. A panel from the Park and Recreation Commission will work with Jan in the selection and interviewing process.

2. Rink Attendants

A suggestion was made that the rink attendants wear name tags.

Also, it was suggested that permanent signs be posted around or in the warming houses indicating the hours the rink would be open.

3. Recommendations from Vince Wright

Vince was invited to present some views on park maintenance.

- A) Idaho Snelling - Consider improving the lighting and wiring.
- B) There is some confusion regarding our policy on broomball and boot hockey. This should be clarified.
- C) New doors for the warming house at Idaho Snelling.

The Commission will invite Vince back in the spring for views on the park situation.

4. Winter Program

Information will be sent out next week. Open gym at Falcon Heights Elementary School will consist of the east gym for pre-schoolers and the west gym for older children.

5. Gazebo

This is still being checked on.

6. Council Liaison

This was Paul Ciernia's last official meeting as Liaison from the Council. The Commission wishes to thank him for his years of assistance.

MINUTES

REGULAR PLANNING COMMISSION MEETING
FEBRUARY 1, 1988

Chairperson Black called the meeting to order at 7:30 P.M.

CALL TO
ORDER

Black, Boche, Daykin, Finegan, Grittner, Nestingen, Carroll, Barry and Duncan. Also present was Council Liaison Wallin.

PRESENT

None.

ABSENT

Daykin moved, seconded by Nestingen, to approve the December 7, 1987 Minutes as corrected (name change in paragraph seven, page 1, from Nestingen to Northrop and rewording of paragraph two on page two). Motion carried unanimously.

12/7/87
MINUTES
APPROVED

Black introduced and welcomed new Planning Commission members, Barry and Carroll.

NEW
MEMBERS
INTRODUCED

Duncan and Finegan nominated David Black as Chairperson for another term and after a short discussion, Boche moved, seconded by Nestingen, to elect David Black as Chairperson to the Falcon Heights Planning Commission. Motion carried.

BLACK
ELECTED
CHAIR

Grittner moved, seconded by Duncan to elect Leonard Boche as Vice-Chairperson of the Falcon Heights Planning Commission. Motion carried.

BOCHE
VICE-CHAIR
FINEGAN
SECRETARY

Duncan moved, seconded by Daykin, to elect Edgar Finegan as Secretary of the Falcon Heights Planning Commission. Motion carried.

Discussion ensued regarding the appropriate place to include liquor stores in the zoning code whether it be a permitted or conditional use sections, whether appropriate licensing procedures were in place for liquor stores and whether certain sections should include the purpose for the uses.

LIQUOR
STORES
IN B-2
DISTRICT
APPROVED

Boche moved, seconded by Finegan, to include the off-sale liquor store as a permitted use in a B-2 retail district. Upon a vote being taken, the following voted in favor thereof: Black, Boche, Daykin, Finegan, Grittner, Nestingen and Carroll and the following voted against the same: Barry and Duncan. Motion carried.

Finegan moved, seconded by Duncan, to institute a licensing procedure to cover off-sale/on-sale liquor stores so that adequate controls are in place to take into account the proximity to sensitive areas such as R-1 areas and schools. Motion carried.

LICENSING
PROCEDURE
INSTITUTE

Wallin reviewed information gathered from a recent seminar regarding land use legislation--particularly as it pertains to variances. As a result, the Commission discussed whether it desired to change its stance taken at the July 6th and December 7th meetings. After considerable discussion, Chairperson Black requested Council Liaison Wallin direct Legal Council or City Staff (through the MN League of Cities) to research whether fences can be regulated by conditional use. The issue could then again be addressed at a later meeting.

REQUEST FOR COUNCIL CONSIDERATION

ITEM DESCRIPTION:

Parking problem on St. Marys by Ciatti's Customers.

SUBMITTED BY:

Jerry Wallin

REVIEWED BY:

EXPLANATION/SUMMARY (attach additional sheets as necessary):

Residents living on St. Mary's are experiencing problems due to Ciatti's customers parking on the street.

2/5/88

Vince checked distance between cars at lunch time on 2/5/88 and found it to be between 13½ and 14 feet. Fire trucks are approximately 8 feet wide and Vince felt school busses would be a similar width.

If parking on one side only is an option you might wish to consider the fact that the west side is the "water side" of the street.

Date: February 4, 198

Time: 11:20 A.M.

City of Falcon Heights

COMPLAINT FORM

Complaint:

Parking problem on St. Mary's St. by customers at Ciatti's. Worst at lunch time, Fri. & Sat, especially happy hour. Cars parked on both sides of street, school bus barely able to pass through, questioned whether or not a fire truck could pass through. Drivers find Ciatti's lot full and east side of street full, proceed north and use residential driveways for turn-around. Many children play on their driveways causing much concern.

Ms. Janet Wiessner, Administrator
City of Falcon Heights
2077 Larpenteur Avenue West
Falcon Heights, MN 55113

RE: St Mary's Street

Dear Ms. Wiessner:

As you requested, we have taken a look at the parking situation on St Mary's Street just north of Larpenteur Avenue. For the most part, parking considerations relative to street width and traffic volume is a local issue. The best source of guidelines would be the Minnesota Department of Transportation State Aid requirements. These are the design criteria which apply to Municipal State-Aid (MSA) designated routes when they are constructed using MSA monies.

The lowest classification the state-aid design criteria recognizes is low density collector. This is a street with an average daily traffic count between 200 and 3,000 vehicles. It's design character would include low to moderate design speeds. The street would serve as a feeder from neighborhood and local streets to the collector/arterial network. It could also serve as access for business and residential development.

Assuming that type of street classification a 28 foot street width would not allow any on-street parking. A 34 foot street width would allow parking on one side and a 40 foot street width is required for parking on both sides.

It is difficult to determine the actual width of St Mary's Street due to the snow. Currently there is approximately 28 feet from snow pile to snow pile. As noted above, according to MnDOT State-Aid standards, this width would not allow on-street parking.

A vehicle parking parallel to a street will occupy 6-8 feet depending on the proficiency of the driver. Therefore, assuming St Mary's Street is 30 feet wide, parallel parking on both sides will leave a 14-18 foot travel width. This is not wide enough to allow two vehicles to meet and pass safely.

Ms. Janet Weissner
