Re: Petition to restore pre-2011 wording of Water Surface Use Ordinance 97.21 for Lake Olson and Lake Demontreville

We, the signers of the attached petition, hereby request the Lake Elmo Watercraft and Water Surface Use regulations, Ordinance 97.21 be restored to its pre-2011 wording.

Our petition is signed by 106 (79%) of all Lake Demontreville/Olson property owners. It is also signed by many non-property owners who use the lakes for recreation purposes. In total, more than 200 people have signed this petition.

Several Lakeshore owners were involved with circulating the petition, talking to the property owners, and listening to their concerns. We were diligent to assure all properties adjoining the lakes were contacted. Ninety- three percent (93%) were contacted. In spite of our efforts, 10 of the 134 properties (7%) are out of town and could not be reached.

The 106 property owners who signed this petition represent 82% of the total private shoreline footage of the lakes. This is because the Jesuit and Carmelite facilities occupy nearly a third of Lake Demontreville shoreline. Their mission which began here in the 1950s requires quiet mornings without noisy boat traffic. We feel the needs of these wonderful Lake Elmo landmarks deserve the special consideration which the pre-2011 Ordinance with the "sunset to noon no-wake" provision provides.

While we understand that these lakes are a public asset, it is important to keep in mind that they are small and shallow lakes where large fast moving motorized boats create a large wake that doesn't have a chance to dissipate before hitting the shore line. Lake Olson is one of the smallest metro lakes to allow the operation of any motorized boat regardless of size or horsepower. And, many Metro area lakes larger than Lake Demontreville are already designated as no-wake lakes. While we do not want our lakes to be more restrictive, we do feel the pre-2011 wording of the Ordinance provides a good compromise between all types of users while reasonably protecting the lakes eco system. Any additional time for wake activities could greatly compromise these lakes and disrupt neighborhood harmony.

Again, we ask you, the Lake Elmo City Council, to restore the Water Surface Regulations Ordinance 94.21 to its pre-2011 wording complete with the sunset to noon the following day no-wake provision, the section D- Buoy restriction, and Section E- Counterclockwise Operation provision .

Thank you kindly for your time and careful consideration of this petition.

Lake Olson and Demontreville property owners.

Roger,

Thanks for the e-mail. I have received two notices sent out by Lake Elmo. I do not agree with their proposed changes.

I totally agree with the petition that: "No person shall operate any motorboat at a speed greater than a slow, no-wake speed as defined by M.S. Section 86B.005 between sunset and noon the following day." I also support a return to the Section D-Buoys, and Section E-Counterclockwise Operation provisions of the pre 2011 Ordinance.

I believe that the change to eliminate the Counterclockwise Operation would be extremely dangerous and would put water skiers at great risk.

I will mail the petition to you, but if it gets there too late, I hope you can use the above as my consent to sign the petition.
