Hi Eric,

Thank you for your input. I will forward this to our City Clerk so that it can get passed onto Council.

We value your opinion,

Alyssa MacLeod

I am gone for business during your livestock/chicken city meeting. But I am a huge supporter of being able to have a few chickens of my own to get fresh eggs. Responsible management is what my neighbors and I in the Tapestry neighborhood talk about. We vote yes! Please pass this on to the people making the decisions
Thank You!

Public Hearing Announcement

Livestock Ordinance to be Discussed on February 18th

The Lake Elmo City Council will be holding a Public Hearing on February 18, 2014 at 7 pm at Lake Elmo City Hall to consider amending the city code to permit the keeping of livestock on parcels smaller than 10 acres. Also included in the proposal is to specifically permit the keeping of both chickens and bees on parcels smaller than 5 acres. Over the past two years, City staff has received numerous requests and inquiries from residents and other individuals seeking to keep this type of livestock on lots smaller than the current requirement of 10 acres. Backyard chicken and beekeeping has gained popularity in urban and suburban settings the past several years. Several area cities have recently taken up the chicken and/or beekeeping issue including neighboring Stillwater, which amended its ordinances in 2012 to permit both chickens and bees.

The City invites the public to attend the council meeting and provide input. Written comments regarding the proposal may be submitted to the City no later than noon on the day of the meeting. Materials regarding the above items are available for review at City Hall. Please call City Hall at [651-747-3900](tel:651-747-3900) for more information.

View Lake Elmo's Bonding Request

The City of Lake Elmo is requesting \$4,000,000 in state bond funding to acquire land and easements, design, construct, furnish and equip a new water booster station and trunk watermain lines along Inwood Avenue and Lake Elmo Avenue from the existing water system to serve southern Lake Elmo, as well as construction of a new water tower at the corner of Inwood Avenue and 10th Street.

The public purpose of this request is to bring clean, potable water to residents, business and other entities. The project further addresses a long term sustainable solution for the delivery of safe drinking water to much of Lake Elmo affected by the underlying PFC groundwater contamination.

Who Was Adolf Hitler? Presentation at the Lake Elmo Public Library

What make one of history's most hated and feared persons tick? Historian, and Lake Elmo resident, David Steele will focus on the person of Adolf Hitler, his work habits, personal health, sexuality, and other factors that influenced his rise to power in the 1920s and 1930s and final decline near the end of World War II. Was Hitler Jewish? Was he always a megalomaniac? When and why did he become an anti-Semite? What was his WWI military service experience? How did he become the absolute dictator of Germany? Dr. Steele will address these issues at the Lake Elmo Public Library on Tuesday, February 25th at 6:30 p.m. in the public meeting room. Because of limited seating, pre-registration is encouraged, 651-773-4926.

Thursday, February 27, 6-7:30 pm
