

**CITY OF LAKE ELMO
WASHINGTON COUNTY
STATE OF MINNESOTA**

RESOLUTION NO. 2017-107

**A RESOLUTION EXTENDING THE WASTEWATER INCENTIVE
TO 201 USERS**

WHEREAS, the City Council approved a Wastewater Incentive Program on June 21, 2016; and

WHEREAS, the program provides a 50% reduction on the Sewer Availability Charge (SAC) and sewer connection charge if those with an existing on-site sewage treatment system connect to municipal sewer within one year from the date the main is available to their property; and

WHEREAS, the incentive was created to address potential environmental concerns; and

WHEREAS, the City owned 201 community septic systems also present potential environmental concerns as replacement land is not readily available;

NOW, THEREFORE, BE IT RESOLVED, that the City Council of the City of Lake Elmo, Minnesota, does hereby extend the Wastewater Incentive Program to those properties served by City owned 201 community septic systems who connect to municipal sewer within one year of its availability to their property.

BE IT FURTHER RESOLVED that this extension of the program is retroactive to include those properties in the Old Village Phase 1 project.

APPROVED by the Lake Elmo City Council on this 3rd day of October, 2017.
