

STAFF REPORT

DATE: November 13, 2018

TO: Honorable Mayor and City Council **FROM:** Sue Iverson – Finance Director

AGENDA ITEM: 2019 Budget Information – General Fund, Utility Funds, EDA and Tax

Levy

REVIEWED BY: Kristina Handt – City Administrator

INTRODUCTION:

In preparation for adoption of the final tax levy in December, this memo addresses the following information: discussion on levy, assumptions being used to prepare the final budget, tax levy, and a discussion on capital improvement funding.

ISSUE BEFORE THE COUNCIL:

- 1) What changes, if any should be made to the final budgets?
- 2) What change, if any should be made to the Final Property Tax Levy?

FINAL LEVY

At the August 28, 2018, City Council worksession, council directed staff to remove the \$30,000 for Family Means from the budget and to set the levy to increase the tax rate by 2% over the 2018 rate. Staff prepared a budget that would increase the tax rate by 2% over the 2018 tax rate, which the City Council adopted as the Preliminary Levy for certification at its September 18, 2019 meeting.

As you can see from the table on the next page, the Pay 2018 rate was 22.4442% with an overall levy of \$3,596,601. The preliminary tax rate for Pay 2019 is 22.902% with an overall levy increase of \$593,236 to \$4,189,837.

PLEASE NOTE THESE ARE ESTIMATES USING NUMBERS FROM THE COUNTY

The overall City levy is made up of the General Fund Operating Levy and the Debt Levies. The table to the left shows the Actual 2018 levy and the Preliminary 2019 levy with the tax rate increased by 2%.

Note: the 2019 General Fund budget includes \$610,076 in transfers to the Vehicle Replacement Fund to <u>reduce</u> future borrowing and debt for equipment and vehicle purchases, meaning, after 2019, if the Vehicle Replacement Fund continues to be funded, the City <u>will not have to borrow for equipment</u>.

The 2019 General Fund budget also includes \$67,859 in transfers to debt service. The reduction in assessments for Old Village Phase 3 assessments results in an increase of \$23,833 each year for the GO 2017A debt levy. Since we cannot increase the levy after the

preliminary levy was set this year, we will have transfer funds from the General Fund to cover this for the 2018 and 2019 levy years totaling \$47,766. The Equipment Certificates issued in 2018 will have an interest payment due for 2019 of \$20,093 that is also transferred as the Debt Levy for this issue cannot be added for 2019 since this bond closed after the preliminary levy was certified.

OPERATING BUDGETS

Salary and Benefits

The 2019 preliminary budget is currently being prepared assuming a 2.5% cost-of-living adjustment (COLA) for non-union staff and 3.0% COLA for union staff with no other changes to the compensation policies, step and grade system. Medical benefits for non-union staff decreased by 4%, however, union staff are estimated to increase by 6% as this increase will not be known until March of 2019. A contingency of \$3,788 has been built into the budget this reason.

General Fund

Revenues are largely increased due to the proposed operating levy for the General Fund. Since the City is in an expansion phase we have projected a conservative estimate for building permits, planning, and zoning fees. Cable franchise revenues are increasing as the City builds out. State Fire Aid and Municipal State Aids (MSA) for road maintenance are based on the current estimates done this year. Tower Rent has increased as we have two additional leases and current lease increases.

| Property Tax Levy | \$771,207 |
| Fiscal Disparities | 49,606 |
| Building/Mechanical Permits | 77,000 |

The Mayor and Council budget remains fairly flat

with the exception of some IT expenses. Communications shows a reduction of which \$33,700 is expenditures for IT that are reallocated throughout the budget to the proper departments.

Finance has an overall decrease of 15.19% as a result of hiring a full-time Finance Director as

opposed to contracting with a consultant, and elimination of the one-time software costs in 2018 for the software conversion. The most notable change in Planning & Zoning is the decrease of \$31,000 as the result of completing the Comprehensive Plan.

Keats Ave Turn Lane has been added in Engineering. The Sheriff's contract increased 5.58%.

Building Inspections had an additional Inspector in the 2018 budget, but since that position has not been filled, staff has reevaluated and changed this for 2019 to reflect a part-time position. A new vehicle for Building Inspections had previously been budgeted for 2018 and has been moved to 2019.

Public Works is comprised of Streets (General Fund), Parks (General Fund), Water, Sewer, and Storm Water. An additional employee has been added to the budget consistent with the

consultant recommendation from 2016, but has been spread across all funds. Staff reevaluated the Public Works employees' time cards and has changed the allocation of salaries and benefits to more accurately reflect costs in the proper departments. \$10,000 has been budgeted for Sunfish Lake Park Management and \$58,000 has been budgeted for mowing contracts.

The Finance Committee recommended that a Vehicle Replacement Fund be established with \$100,000 from the General Fund Balance and \$75,000 as a budgeted transfer from Fire, Streets, and Parks & Recreation. Additional funds of \$435,076 from the tax levy not needed for the operating budget is also being placed into this fund, thus reducing the need to bond for equipment in the future.

Since the Levy cannot be increased once the Preliminary Levy was certified to the county, transfers from the General Fund to Debt Service funds for the 2017A Bond and 2018A Equipment Certificates have been included in the budget as previously discussed. The 2017A Bond includes assessments from the Old Village Phase 3 project. Since the final assessment roll was adopted with some reductions in the assessments, an updated calculation for the tax levy was done showing an increase in the tax levy needed of \$23,833 per year, 2018 and 2019 levies needed a total of \$47,766 and have been included in the budget. The 2018A Equipment Certificates closed in October of this year and the levy for that issue will begin in 2020. An interest payment on this debt of \$20,093 will be required in 2019 and is included in the budget.

EDA Fund

Attached is the 2019 Budget for the EDA Brookfield Building Fund. Since the building was purchased in 2018, there was no 2018 budget for this fund. Revenues consist of tenant rents and expenditures are building maintenance, operation, and debt service.

Utility Funds

The utility funds follow the Utility Rate Study projections in the Financial Management Plan with a few updates as the City has been building out faster than anticipated. Many line items follow the same allocation changes and additional personnel as the Street and Parks budgets in the General Fund. Staff has worked to charge the correct costs to each fund/department. The Utility Financial Management Plan is currently being updated and will be reviewed by the Finance Committee at its November meeting.

Water Fund

This fund has had no changes since the Council last reviewed it on August 28, 2018.

Sewer Fund

This fund has had no changes since the Council last reviewed it on August 28, 2018.

Storm Water Fund

This fund has one change to add an additional \$30,500 for maintenance since the Council last reviewed it on August 28, 2018.

FINANCIAL MANAGEMENT PLAN

Per direction from the City Council, staff has prepared the forecast keeping the City's Tax Rate at a 2% increase through 2022. This was done to deal with the concerned of fluctuating tax rates in the original 10 year projections, especially in year 2023 when the new City Hall/Fire Station costs/debt would be added to the tax rolls. This stabilizes the increases much like you would do with utility rates. This provides several benefits:

1. The tax increase is a steady increase of 3.6% or about \$33-\$36 a year (2020 – 2022) and 5.2% or \$52-\$56 a year (2023 – 2024) on the median valued home (projecting a 1.5% market value increase each year).

2. The plan shows that existing properties would be paying for the normal increases in the budget and costs due to inflation (as the City is *estimating* expenses increasing by 4% per year) while new development would be paying for the increased costs in services and equipment due to development as these have been worked into the plan as well as current expenses.

4. Additional reserves would be accumulating to assist with future equipment expenses, thus eliminating the need to borrow or bond, thus growing our fund balances to maintain reserve levels to achieve favorable bond ratings. (*The fund balance reserve is calculated using the percent of the current year's operating budget less transfers, so as the budget grows so will the required reserves to meet this level. The reserves can be an accumulation of all governmental funds excluding the enterprise funds, it is not just the general fund reserves.)* So placing funds in the Vehicle Replacement Fund rather than leaving them in the Undesignated General Fund Balance shows greater transparency on what the reserves will be used for and does not hurt our chances for a favorable bond rating.

6. Since the City is in an expansion phase, traditional budgeting using inflation factors does not always capture what is really happening and the future effect of decisions made in one year over time. As you can see from the illustration below, using a budget process of only looking at the current year without looking to the future did not capture the increased revenues from the growth in the market value in the City. It lowered the taxes of existing homes and did not build reserves to pay for future costs. This results in fluctuations in the tax rate and taxes over time.

As shown below, if the City would have had this tool in 2015 and had looked at keeping the tax rate flat, it would have resulted in a \$190 tax increase on the median valued home between 2014-2019, \$117 of this coming from the market value increase in 2015 of 11.9% (all increases would have been a result of market value increases and the loss of the market value exclusion as the value rose). None of the increase would have been from a City tax increase. A total of \$3,827,252 in additional reserves could have been collected to reduce the amount of debt or borrowing.

For example, the 2018A G.O. Equipment Certificates were \$940,000 with a debt levy shown on the left.

Based on this schedule, if we were to use \$125,000 and add it to this year's debt levy, it would increase the tax rate to 5.25%, or increase it by 3.20%. This

illustrates the effect of debt issuance on the tax rate. Using a Financial Management Model to look at future forecasting, this can help show that developing a policy on a steady or moderate increases in the tax rate can help build reserves and reduce the amount of borrowing in the future.

- 7. In looking at the tax rate in 2014 of 27.761% the forecast shows that the tax rate thru 2029, even with the proposed increase of 2% for 2019 2022 and the City Hall/Fire Station will still not be at the 2014 level. The City continues to compare favorably to other cities and taxing jurisdictions in Washington County when looking at 2018 tax rates.
- 8. As these forecasts are high level indications of what is planned at this point, they will constantly be monitored and changes based on decisions and economic factors as they occur. They are meant to provide a look into the future to better assist in making decisions and policy based on our long-range plans. Out years after 2024 will need refining to help build reserve funds to pay for maintaining infrastructure and repairs and minimize the need for bonding as once development slows, the City will need to have reserves for these purposes.

PROCESS FOR THIS EVENING:

For this evening, staff will answer any question on the 2019 Proposed Budgets. In addition, discussion on the 2019 Final Property Tax Levy will ensue, with staff also available to answer any questions.

OPTIONS:

1) If the Council wishes to see any changes to the proposed budget or levy at the December meeting, please provide that direction to staff so the documents can be updated before the adoption of the final levy.
