

STAFF REPORT

DATE: April 6, 2021

REGULAR

MOTION

TO: City Council
FROM: Ken Roberts, Planning Director
AGENDA ITEM: Legacy at North Star Fourth Addition Development Agreement
REVIEWED BY: Jack Griffin, City Engineer
Sarah Sonsalla, City Attorney

BACKGROUND:

Resolution 2021 - 045 approving the Final Plat of Legacy at North Star Fourth Addition indicates that an executed Development Agreement is a condition of final plat approval and is required before recording the final plat with Washington County.

ISSUE BEFORE CITY COUNCIL:

City staff is asking the City Council to adopt Resolution 2021 - 045 approving the Development Agreement for the Legacy at North Star Fourth Addition.

REVIEW/ANALYSIS:

A condition of approval of the Legacy at North Fourth Addition Final Plat is that the developer enter into a Development Agreement before the execution of the final plat by City officials. Staff has drafted this Development Agreement which is attached for consideration by the City Council. The key aspects of the agreement include the following components:

- That all public improvements to be completed by October 31, 2022, with the exception of the final wear course of asphalt on streets.
- That the developer provide a letter of credit in the amount of \$1,427,621 related to the cost of the proposed improvements.
- That the developer provide a cash deposit of \$662,645 for SAC and WAC charges, park dedication charge, engineering administration, one year of street light operating costs, AUAR and other City fees. (Page 30)

The City Engineer has approved the construction plans for the project. The City's Landscape Architect has not yet approved the final landscaping plans for this phase of the development. Once all the project plans have been approved, and upon execution of this Agreement, receipt of all fees and securities, insurance, recording of the final plat and the completion of a pre-construction meeting with the City, the developer may start construction. The City Attorney has reviewed and approved the proposed development agreement.

FISCAL IMPACT:

The future financial impacts of this development for the City include maintenance of streets, trails, sanitary sewer mains, watermains and other public infrastructure, maintenance of storm water ponding areas (after warranty period), monthly lease payments for street lights, and other public financial responsibilities typically associated with a new development. The City will collect building permit fees, Sewer Accessibility Charges and Water Accessibility Charges and property taxes for the 62 lot single family residential subdivision.

RECOMMENDATION:

Staff recommends the City Council adopt Resolution 2021-045 approving the Development Agreement for the Legacy at North Star Fourth Addition:

“Move to adopt Resolution 2021 - 045 approving the Development Agreement for Legacy at North Star Fourth Addition Final Plat”

**CITY OF LAKE ELMO
WASHINGTON COUNTY
STATE OF MINNESOTA**

RESOLUTION NO. 2021-045

***A RESOLUTION APPROVING A DEVELOPER'S AGREEMENT FOR THE LEGACY AT
NORTH STAR FOURTH ADDITION FINAL PLAT***

WHEREAS, the City of Lake Elmo is a municipal corporation organized and existing under the laws of the State of Minnesota; and

WHEREAS, GWSA Land Development of Plymouth, MN ("applicant") has previously submitted an application to the City of Lake Elmo ("City") for a Final Plat for Legacy at North Star Fourth Addition Planned Unit Development; and

WHEREAS, the Lake Elmo City Council considered the Legacy at North Star Sketch Plan at its June 6, 2017 meeting; and

WHEREAS, the Lake Elmo City Council approved the Legacy at North Star Preliminary Plat and PUD on February 20, 2018; and

WHEREAS, the Lake Elmo City Council adopted Resolution 2021-043 on April 6, 2021 approving the Final Plat for the Legacy at North Star Fourth Addition; and

WHEREAS, a condition of approval of said Resolution 2021-043, establishes that before execution of the Final Plat by City officials, the Applicant shall enter into a Developer's Agreement with the City; and

WHEREAS, the Applicant and the City have agreed to enter into such a contract and a copy of the Developer's Agreement was submitted to the City Council for consideration at its April 6, 2021 meeting;

NOW, THEREFORE, BE IT RESOLVED THAT the City Council does hereby approve the Developer's Agreement for Legacy at North Star Fourth Addition and authorizes the Mayor and City Clerk to execute the document.

Passed and duly adopted this 6th day of April, 2021 by the City Council of the City of Lake Elmo, Minnesota.

Charles Cadenhead, Mayor

ATTEST:

Julie Johnson, City Clerk

(reserved for recording information)

DEVELOPMENT AGREEMENT

(Public sewer and water)

Legacy at North Star 4th Addition

THIS DEVELOPMENT AGREEMENT is dated _____, 2021, by and between the **CITY OF LAKE ELMO**, a Minnesota municipal corporation (the “City”) and GWSA Land Development, LLC, a Minnesota limited liability company (the “Developer”).

1. REQUEST FOR PLAT APPROVAL. The Developer has asked the City to approve a plat for Legacy at North Star 4th Addition (referred to in this Agreement as the “Subdivision”). The property being platted is situated in the County of Washington, State of Minnesota, and is legally described on **Exhibit A** (the “Property”).

2. CONDITIONS OF PLAT APPROVAL. The City hereby approves the Subdivision on condition that the Developer enter into this Agreement, furnish the security required by it, and record the plat with the County Recorder or Registrar of Titles within 180 days after the City Council approves the final plat.

3. RIGHT TO PROCEED. This Agreement is intended to regulate the development of the Property and the construction therein of certain public and private improvements. Unless separate written approval has been given by the City, within the plat or land to be platted, the Developer may not grade or otherwise disturb the earth, remove trees or construct public or

private improvements or any buildings within the Subdivision until all the following conditions precedent have been satisfied:

- A. the Developer has executed and recorded with Washington County all drainage and utility easements (including a drainage and utility easement over all of Outlot A) required for the Subdivision by the City Engineer and Public Works Director in the City's standard form or the easements have been dedicated to the City on the plat;
- B. the Developer has executed and recorded with Washington County a conservation easement in favor of the City over all of Outlot A of the Subdivision in the City's standard form; and
- C. the Developer has executed and recorded with Washington County trail and/or sidewalk easements in favor of the City required for the Subdivision by the City Planning Director in the City's standard form or the easements have been dedicated to the City on the plat; and
- D. the Developer has provided the City with written verification from Washington County that sufficient right-of-way has been dedicated to the City on the plat. If deemed necessary by the City and/or Washington County, the Developer has caused to be executed and recorded with Washington County a right-of-way easement in favor of the City along Lake Elmo Avenue (CSAH 17) from the southern boundary of the Property to Stillwater Boulevard North (CSAH 14) that is consistent with the requirements of the preliminary plat approval in the City's standard form; and
- E. this Agreement has been executed by the Developer and the City;
- F. the required Security (as hereinafter defined) has been received by the City from or on behalf of the Developer;
- G. final construction plans and specifications have been submitted by the Developer and approved by the City Engineer;

- H. the Developer has paid the City for all legal, engineering, and administrative expenses incurred by the City regarding the City approvals and has given the City the additional City Engineering Administration Escrow required by this Agreement;
- I. the Developer has paid any outstanding assessments and taxes for the property or any property being deeded to the City;
- J. the Developer has fulfilled any park dedication requirements as specified under this Agreement;
- K. the Developer has received all necessary permits from the MPCA, MDH, DNR, applicable watershed, Washington County, and any other agency having jurisdiction over the Subdivision;
- L. the Developer has provided the City with a certificate of insurance required by this Agreement;
- M. the Developer, the Developer's engineer and the Developer's contractor(s) have initiated and attended a preconstruction meeting with the City Engineer, and City staff;
- N. the final plat has been recorded with Washington County;
- O. all homeowners' association declarations, covenants, and restrictions have been submitted, reviewed, and approved by the City Attorney;
- P. a title insurance policy has been issued in the amount of \$100,000 in favor of the City insuring all the City's interests as they appear on the plat; and
- Q. the City has issued a written notice that all above conditions have been satisfied and that the Developer may proceed.

4. PHASED DEVELOPMENT. If the plat is a phase of a multi-phased preliminary plat, the City may refuse to approve final plats of subsequent phases of the development if the Developer is not in compliance with any term of this Agreement and the non-compliance has not

been remedied. Development of subsequent phases of the development may not proceed until development agreements for such phases are approved by the City. Park dedication charges and availability charges for sewer and water referred to in this Agreement are not being imposed on outlots that are designated in the plat for future subdivision into lots and blocks, if any, in the plat. Such charges will be calculated and imposed when these outlots, if any, are platted into lots and blocks.

5. PRELIMINARY PLAT STATUS. If the Subdivision is a phase of a multi-phased preliminary plat, the preliminary plat approval for all phases not final platted shall lapse and be void unless final platted into lots and blocks, not outlots, within seven years after preliminary plat approval.

6. CHANGES IN OFFICIAL CONTROLS. For five years from the date of this Agreement, no amendments to the City's Comprehensive Plan or official controls shall apply to or affect the use, development density, lot size, lot layout, or dedications of the approved final plat unless required by state or federal law or agreed to in writing by the City and the Developer. Thereafter, notwithstanding anything in this Agreement to the contrary, to the full extent permitted by state law, the City may require compliance with any changes to the City's Comprehensive Plan, official controls, platting or dedication requirements enacted after the date of this Agreement.

7. DEVELOPMENT PLANS. The Developer agrees to develop the Property in accordance with the City approvals, including the terms and conditions of approval of the final plat as detailed in City Council Resolution **No. 2021 - [REDACTED]** and to construct all improvements in accordance with the approved construction plans and specifications (collectively, the "Plans") prepared by a professional engineer registered in the State of Minnesota at its sole expense. All terms and conditions of the City approvals are hereby incorporated by reference into this Agreement. The documents which constitute the Plans are those on file with and approved by the City and are listed on **Exhibit B** attached hereto. The Plans may not be modified by the

Developer without the prior written approval of the City.

8. IMPROVEMENTS. In developing the Subdivision in accordance with the Plans, the Developer shall make or install at its sole expense the following public and private improvements (collectively, the “Subdivision Improvements”):

- A. Grading and erosion control;
- B. Sanitary sewer;
- C. Water system improvements;
- D. Stormwater improvements (storm sewer pipe, control structures, ponds, BMPs, etc.);
- E. Streets and sidewalks;
- F. Trails;
- G. Underground private utilities;
- H. Landscaping;
- I. Street lighting and signage;
- J. Intersection improvements (turn lanes, by-pass lanes, traffic control, etc.);
- K. Tree preservation and reforestation;
- L. Wetland mitigation and buffers; and
- M. Monuments required by Minnesota Statutes.

All improvements shall be installed in accordance with the approved Plans, the City approvals, the City Code, the City’s Engineering Design and Construction Standards Manual, and the City’s Landscape and Irrigation Standards. The Developer shall instruct its engineer to provide adequate field inspection personnel to assure an acceptable level of quality control to the extent that the Developer’s engineer will be able to certify that the construction work meets the approved Plans, the City approvals, the City Code, the City’s Engineering Design and Construction Standards Manual, and the City’s Landscape and Irrigation Standards as a condition of City acceptance. In addition, the City may, at the City’s discretion and at the Developer’s expense, have one or more City inspectors or a soil engineer inspect the Developer’s work on a full or part-time basis. The Developer’s engineer shall provide for on-site project management.

The Developer's engineer is responsible for design changes and contract administration between the Developer and the Developer's contractor.

9. CITY ADMINISTRATION AND CONSTRUCTION OBSERVATION. At the time of the City's approval of the final plat for the Subdivision, the Developer shall submit to the City an amount to be escrowed by the City for City administration and construction observation costs in an amount provided under paragraph 36 of this Agreement - Summary of Security Requirements. Thereafter, the Developer shall reimburse the City each month, within 30 days of receiving an invoice, for all administration and construction observation costs incurred by the City during the construction of the Subdivision Improvements by the City's engineering, public works, planning, and landscape architecture staff and consultants. After 30 days of the invoice, the City may draw upon the escrow and stop the work on site until the escrow has been replenished in its full amount. City administration and oversight will include monitoring of construction progress and construction observation, consultation with the Developer and the Developer's professionals on status or problems regarding the project, coordination for testing, final inspection and acceptance, project monitoring during the warranty period, and processing of requests for reduction in the Security. Construction observation shall include, at the discretion of the City, part or full time inspection of proposed public utilities and street construction. The City will bill for the services on an hourly basis.

The direction and review provided by the City through the inspection of the Subdivision Improvements should not be considered a substitute for the Developer-required management of the construction of the Subdivision Improvements. The Developer must require the Developer's contractor(s) to furnish the City with a schedule of proposed operations at least five days prior to the commencement of construction of each type of Subdivision Improvement. The City shall inspect all Developer-installed Subdivision Improvements during and after construction for compliance with the Plans, the City approvals, the City Code, the City's Engineering Design and

Construction Standards Manual, and the City's Landscape and Irrigation Standards. The Developer will notify the City at such times during construction as the City requires for inspection purposes. Such inspection is pursuant to the City's governmental authority, and no agency or joint venture relationship between the City and the Developer is thereby created.

10. CONTRACTORS/SUBCONTRACTORS. City Council members, City employees, and City Planning Commission members, and corporations, partnerships, and other entities in which such individuals have greater than a 25 percent ownership interest or in which they are an officer or director may not act as contractors or subcontractors for the Subdivision Improvements identified in Paragraph 8 above.

11. TIME OF PERFORMANCE. The Developer shall install all required Subdivision Improvements by October 1, 2022, with the exception of the final wear course of asphalt on streets. The Developer shall install the bituminous wearing course of streets after the first course has weathered a winter season, consistent with warranty requirements, however, final acceptance of the Subdivision Improvements by the City will not be granted until all work is completed, including the final wear course. The Developer may, however, request an extension of time from the City. If the City grants a time extension, it shall be conditioned upon updating the Security posted by the Developer to reflect cost increases and amending this Agreement to reflect the extended completion date. Final wear course placement outside of this time frame must have the written approval of the City Engineer.

12. MAINTENANCE DURING CONSTRUCTION. The Developer shall be responsible for all maintenance of the Subdivision Improvements including the snow plowing of the streets, roads, and alleys until the Subdivision Improvements are accepted by the City in writing. The Developer and its contractors must adhere to the City's weight restrictions for all streets both inside and outside of the Subdivision, regardless of whether said streets are included in the City's map of streets with weight restrictions and regardless of whether said streets are fully constructed. The

Developer also is responsible to locate all underground utilities until the Subdivision is accepted in writing by the City. Warning signs shall be placed by the Developer when hazards develop in streets to prevent the public from traveling on same and to direct attention to detours. If and when streets become impassable, such streets shall be barricaded and closed by the Developer. In the event residences are occupied prior to completing streets, the Developer shall maintain a smooth surface and provide proper surface drainage to ensure that the streets are passable for traffic and emergency vehicles. The Developer shall be responsible for keeping streets within and without the Subdivision clean and clear of dirt and debris that may spill, track, or wash onto the street from the Developer's operations. The Developer shall contract for street cleaning for streets within and immediately adjacent to the Subdivision. At a minimum, scraping and sweeping shall take place on a weekly basis.

Before the City's acceptance of the streets, the City may agree, at the City's sole discretion, to keep the streets open during winter months by plowing snow. The City will consider snow plowing the streets in the Subdivision on a case by case basis and under the following conditions: 1) the Developer must request in writing the streets it is requesting to be plowed by the City, with such request received before October 1st of each winter season that plowing is requested; 2) there must be residences along each street; 3) for streets that do not have the bituminous wear course placed, the Developer must install paved wedges along all curb lines and catch basins of the street; 4) gate valves and manholes must be level with the pavement surface; 5) street curves, center medians, and other protrusions in the right-of-ways must be delineated with "HI-VIS" fiberglass stakes; 6) a site review must be scheduled by the Developer and conducted with the City's Public Works Department with the Developer in attendance to review the streets that are being requested to be plowed prior to the commitment of plowing by the City; 7) the Developer must agree not to hold the City responsible for any damage caused by snow plowing operations to the streets, curb and gutter, manholes, catch basins, or other infrastructure;

and 8) the Developer shall enter into an agreement with the City for plowing of the streets.

13. LICENSE. The Developer hereby grants the City, its agents, employees, officers, and contractors a license to enter the Property to perform all work and inspections deemed appropriate by the City in conjunction with the development of the Property and this Agreement.

14. CONSTRUCTION ACCESS. Construction traffic access and egress for grading, public utility construction, and street construction is restricted to access the Subdivision via Lake Elmo Avenue at 39th Street North or 41st Street North. No construction traffic is permitted on other adjacent local streets.

15. CONSTRUCTION SEQUENCE AND COMPLIANCE. The City will require the Developer to construct the Subdivision Improvements in a sequence which will allow progress and compliance points to be measured and evaluated. The Developer and the Developer's representatives are required to supervise and coordinate all construction activities for all Subdivision Improvements and must notify the City in writing stating when the work is ready for the inspection at each of the measurable points defined in the following paragraphs.

16. EROSION CONTROL. All construction regarding the Subdivision Improvements shall be completed in a manner designed to control erosion and in compliance with the City Code, the City's Engineering Design and Construction Standards Manual, all watershed district permits, the Minnesota Pollution Control Agency's best management practices, and other requirements including the City's permit with the Minnesota Pollution Control Agency for the municipal separate storm sewer system program. Prior to initiating any work on the site, an erosion control plan must be implemented by the Developer and inspected and approved by the City. Erosion and sediment control measures shall be coordinated with the various stages of development. The City may impose additional erosion control requirements at any stage in development as deemed necessary to maintain a compliant site. The Developer shall reseed all areas disturbed for site improvements promptly after the work in the area is complete unless construction of the next

stage of the improvements will begin in that area within seven days. The parties recognize that time is of the essence in controlling erosion.

If the Developer does not comply with the erosion control plan and schedule or supplementary instructions received from the City, the City may take such action as it deems appropriate to control erosion. The City will endeavor to notify the Developer in advance of any proposed action, but failure of the City to do so will not affect the Developer's and City's rights or obligations hereunder. If the Developer does not reimburse the City for any cost the City incurred for such work within 10 days, the City may draw down the Security to pay any costs. The City will not allow any development or site work, utility, or street construction and will not issue any building permits in Subdivision unless the Subdivision is in full compliance with the approved erosion control plan.

If the City issues building permits before the acceptance of public Subdivision Improvements, the Developer assumes all responsibility for erosion control compliance throughout the Subdivision and the City may take such action as allowed by this Agreement against the Developer for any noncompliant issue as stated above. The City will require erosion control plans for individual lots in accordance with the City's building permit requirements, or as required by the City or City Engineer.

17. SITE GRADING. In order to construct the Subdivision Improvements and otherwise prepare the Property for development, it will be necessary for the Developer to grade the Subdivision. All grading must be done in compliance with this Agreement and the approved grading plans. Within 30 days after completion of the grading, the Developer shall provide the City with an "as built" grading plan and a certification by a registered land surveyor or engineer as required in the City's Engineering Design and Construction Standards Manual.

18. STREET AND UTILITY IMPROVEMENTS. All storm sewers, sanitary sewers, watermain, and streets, including turn lane and intersection improvements, shall be installed in

accordance with the approved Plans, the City approvals, the City Code, and the City's Engineering Design and Construction Standards Manual. Curb and gutter, the first lift of the bituminous streets, sidewalks, boulevards graded, street signs installed, and all restoration work on the site shall be completed in accordance with the approved Plans. Once the work is completed, the Developer or the Developer's representative shall submit a written request to the City asking for an inspection of the initial improvements. The City will then schedule a walk-through to create a punch list of outstanding items to be completed. Upon receipt of the written punch list provided by the City, the punch list items must be completed by the Developer and the City notified to re-inspect the improvements. The Developer shall install the final bituminous wear course after the first bituminous course has weathered a winter season. Before the placement of the final bituminous wear course, the Developer shall repair or replace all broken or failing curbs, sidewalks and damaged or settled streets as determined by the City from a pre-wear course walk through inspection.

19. LANDSCAPING AND TREE REPLACEMENT IMPROVEMENTS.

- A. The Developer agrees to install or cause to be installed landscaping in accordance with the approved Plans, the City approvals, the City Code, the City's Engineering Design and Construction Standards Manual, and the City's Landscape and Irrigation Standards. All landscaping materials such as trees, shrubs, grasses, or other vegetation installed by the Developer must be warrantied and maintained for a period of two years. The two year warranty period shall be deemed to start once all required landscaping identified as responsibility of Developer in the approved Plans has received acceptance by the City. The Developer agrees to have the installer complete an inspection 30 days prior to the end of the two year warranty period and provide the City with a written report identifying the condition of all landscaping. In the event any landscaping installed by the Developer is deemed to be in poor condition or dead, the Developer is to replace the landscaping with like kind materials

or as otherwise approved by the City.

- B. The Developer shall be responsible for maintaining regular watering, fertilizing, and over-seeding necessary to establish final lawns and yards as identified in the approved Plans for outlots, public rights-of-way, and any disturbed areas outside the Subdivision boundaries according to a landscape maintenance plan approved by the City. The Developer agrees to achieve "substantial performance" on all seeded or sodded lawns and yards disturbed during the construction of Subdivision Improvements. For the purpose of this Agreement "substantial performance" shall be defined for areas seeded or sodded with a turf or lawn mix as "square foot turf areas with an average blade height of three inches free of eroded, bare, or dead spots and free from perennial weeds or unwanted grasses with no visible surface soil." For areas seeded with a native grass or flower mix "substantial performance" shall be defined as "square foot native grass or flower areas with an average height of eight inches free of eroded, bare, or dead spots and no visible surface soil."

20. SIGNAGE, STREET LIGHTING AND OTHER UTILITIES. The Developer agrees to install street signs, traffic and parking signs, and pavement markings within the Subdivision all in accordance with the approved Plans and the City Engineering Design Standards Manual. Street and traffic sign details shall be submitted by the Developer to the City for approval before their installation. In addition, the Developer shall be responsible for the cost and all coordination work to extend private utilities along with street lighting within the Subdivision all in accordance with the approved plans and right-of-way permits.

21. OWNERSHIP OF IMPROVEMENTS. Upon completion of the work and construction required by this Agreement, the Subdivision Improvements lying within public easements shall become City property. Prior to acceptance of the public Subdivision Improvements by the City, the Developer must furnish the City with a complete set of reproducible "record" plans and an

electronic file of the "record" plans in accordance with the City's Engineering Design and Construction Standards Manual together with the following affidavits:

- Developer/Developer Engineer's Certificate
- Land Surveyor's Certificate

certifying that all construction has been completed in accordance with the terms of this Agreement. All necessary forms will be furnished by the City. Upon receipt of "record plans" and affidavits, and upon review and verification by the City Engineer that the public Subdivision Improvements have been completed in accordance with the terms of this Agreement, the City Engineer will accept the completed public Subdivision Improvements.

22. PARK DEDICATION. The total required park dedication for the entire Legacy at North Star subdivision is 10 percent of the total area being platted (10 percent of 98.93 acres = 9.893 acres). The Developer satisfied a portion of the park dedication requirements for the entire Legacy at North Star subdivision with the conveyance of Outlot D of Northport 1st Addition to the City pursuant to the Memorandum of Understanding between GWSA Land Development, LLC and the City entered into on October 3, 2017 and recorded on November 15, 2017 as Document 4135230 that allowed the Developer to use Outlot D of Northport 1st Addition towards its park dedication requirements for Legacy at North Star. Outlot D of Northport 1st Addition is 6.51 acres in size. Therefore, after applying the 6.51 acre credit to the 9.893 acres that is required, the Developer is only responsible for an additional 3.383 acres of park dedication for the remaining parts of the Development.

With the Legacy at North Star 1st Addition, the Developer platted 27.2 acres of land which required park dedication of 2.72 acres. By subtracting 2.72 acres from the 6.51 acres of land the City accepted from Outlot D of Northport, the Developer had a credit of 3.79 acres of park dedication remaining. With the 3.79 acres of credit available to the Developer and only 2.28 acres of park dedication needed for the Legacy at North Star Second Addition, the City did not require the Developer to dedicate any additional land or pay any park dedication fees for that Subdivision.

The 2.28 acres of park dedication for the Second Addition was subtracted from the Developer's credit of 3.79 acres, leaving 1.51 acres of park dedication credit remaining for future phases of the development.

After the Developer used the credit of 1.51 acres of land toward the park dedication in the Third Addition, the Developer was responsible for paying the City a cash contribution of \$278,668 in order to satisfy the remaining park dedication requirements for the future phases. The amount of the cash contribution was calculated as follows: 10 percent of the value of 98.93 acres within the entire preliminary plat area (\$816,173) less the value of Outlot D of Northport 1st Addition (\$537,505).

With the Legacy at North Star Third Addition consisting of 21.45 acres, the Developer was responsible for a park dedication of 2.145 acres of land for that phase of the development. Since the Developer had 1.5 acres of credit remaining from the initial 6.51 acre land dedication, the Developer was responsible for an additional park dedication of 0.645 acres of land to meet the park dedication requirement for the Legacy at North Star Third Addition. The Developer satisfied this park dedication requirement for the Third Addition requirement by paying the City a cash contribution of \$52,643 (0.645 acres x \$81,617.30 *value per acre*).

With the Legacy at North Star Fourth Addition, the Developer will be responsible for a park dedication of 2.75 acres of land for this phase of the development to complete all the park dedication requirements for the entire Legacy at North Star PUD Subdivision. The City calculated this park dedication requirement as follows: 9.893 acres (total park dedication requirement) – 7.145 acres (park dedication accounted for to date) = 2.75 acres remaining for park dedication. The Developer shall satisfy this park dedication requirement for the Fourth Addition requirement by paying the City a cash contribution of \$224,447.58 (2.75 acres x \$81,617.30 *value per acre*).

23. VILLAGE AREA AUAR FEE. The Developer shall be responsible for the payment of the Village Area Alternative Urban Areawide Review (AUAR) fee as adopted by the City Council

with respect to the environmental review completed by the City. The Village Area Alternative Urban Areawide Review (AUAR) fee in the amount of \$230.00 per REC shall be paid by the Developer prior to the City releasing the final plat for recording. The total amount to be paid by the Developer is \$14,260.00 for this Subdivision.

24. SANITARY SEWER AND WATER UTILITY AVAILABILITY CHARGES (SAC AND WAC). The Developer shall be responsible for the payment of all sewer availability charges (SAC) and all water availability charges (WAC) with respect to the Subdivision Improvements required by the City and any state or metropolitan government agency.

The sewer availability charge (SAC) in the amount of \$3,000.00 per REC shall be paid by the Developer to the City before recording the final plat. The total amount to be paid by the Developer is \$186,000.

The water availability charge (WAC) in the amount of \$3,000.00 per REC shall be paid by the Developer to the City prior to recording the final plat. The total amount to be paid by the Developer is \$186,000.

In addition, a sewer connection charge in the amount of \$1,000.00 per REC, a Metropolitan Council sewer availability charge in the amount of \$2,485.00 per REC, and a water connection charge in the amount of \$1,000.00 per REC will be payable by the Developer and collected by the City at the time the City issues a building permit for each lot.

25. STREET LIGHTS. The Developer is responsible for the cost of street light installation consistent with a street lighting plan approved by the City. Before the City signs the final plat, the Developer shall post a Security for street light installation consistent with the approved plan. The required Security is \$18,000 and consists of three decorative lights at \$6,000.00 each. The Developer shall also pay the City \$129/light (\$387) to reimburse the City for the first-year operating costs for the streetlights.

26. WETLAND MITIGATION. The Developer shall complete wetland mitigation/restoration in accordance with the approved Plans and in accordance with any applicable Watershed or agency permits. If the mitigation work is found to be incomplete or restoration is unsuccessful, the City may draw down the Security at any time during the warranty period to perform the work if the Developer fails to take corrective measures after being provided notice by the City.

27. BUILDING PERMITS/CERTIFICATES OF OCCUPANCY.

- A. The City will not issue a building permit for any lot within the Subdivision, or within a completed phase of the Subdivision in a City preapproved phasing plan, until such time that sanitary sewer, water, storm sewer, curbing, and one lift of asphalt has been installed and tested for all public streets; boulevard grading has been completed within the entire right-of-way (without hold down grading for the future sidewalk or any other improvements); street and traffic control signs are installed; property monuments have been installed and grading as-built plans have been submitted and approved by the City. A “preapproved phasing plan” is defined as a phased construction plan that has been submitted by the Developer and approved by the City in advance of the preconstruction meeting for the Subdivision. Once the construction has started, the City will not consider revisions to the phasing plan for the purpose of issuing building permits.
- B. The City Planning Director may authorize the City issue building permits for two “model homes” before the completion of the Subdivision Improvements described in paragraph 27 (A) above, if there is safe public access to the lots that is sufficient to allow construction to proceed and there is a grading as-built plan approved by the City for the lots and all downstream storm water drainage facilities. However, the City will not issue a certificate of occupancy for any “model home” until all conditions identified in paragraph 27 (A) above have been completed. The Developer shall use

the model homes only for real estate sales purposes and no other purposes.

- C. Before the City issues building permits, wetland buffer monuments shall be placed in accordance with the City's zoning ordinance. The monument design shall be approved by the City Planning Department.
- D. Breach of the terms of this Agreement by the Developer, including nonpayment of billings from the City, shall be grounds for denial of building permits, certificates of occupancy, and withholding of other permits, inspections, or actions and the halting of all work in the Subdivision.
- E. If the City issues building permits before the acceptance of the public Subdivision Improvements by the City, the Developer assumes all liability and costs resulting in delays in completion of public Subdivision Improvements and damage to public Subdivision Improvements caused by the City, the Developer, the Developer's contractors, subcontractors, materialmen, employees, agents, or any third parties.
- F. If the City issues building permits before the construction of front yard sidewalks or trails, the Developer assumes all responsibility for the coordination, liability and costs to; 1) ensure that the sidewalks and trails are constructed before any driveways for any lots with sidewalks or trails; 2) that the sidewalks and trails are constructed continuously from end of street to end of street without exceptions or gaps in the sidewalk or trail; 3) that there is a stop work order on all building construction for impacted lots during the sidewalk and trail construction and curing periods to prohibit traffic prior to City approval; and, 4) that all boulevard grading and restoration re-work is completed immediately following the sidewalk or trail construction.
- G. No sewer and water connection permits may be issued until the streets needed for access have been paved with a bituminous surface and the utilities are tested and approved by the City Engineer.

28. RESPONSIBILITY FOR COSTS.

- A. In the event that the City receives claims from labor, materialmen, or others that work required by this Agreement has been performed and the amounts due to them have not been paid, and the laborers, materialmen, or others are seeking payment from the City, the Developer hereby authorizes the City to commence an Interpleader action pursuant to Rule 22, Minnesota Rules of Civil Procedure for the District Courts, to draw upon the Security in an amount up to 125 percent of the claim(s) and deposit the funds in compliance with the Rule, and upon such deposit, the Developer shall release, discharge, and dismiss the City from any further proceedings as it pertains to the funds deposited with the District Court, except that the Court shall retain jurisdiction to determine attorneys' fees pursuant to this Agreement.
- B. Except as otherwise specified herein, the Developer shall pay all costs incurred by it or the City in conjunction with the development of the Subdivision, including but not limited to legal, planning, engineering, and inspection expenses incurred in connection with the City's approval and acceptance of the plat and the Subdivision, the preparation of this Agreement, the City's review of construction plans and documents, and all costs and expenses incurred by the City in monitoring and inspecting development of the Subdivision. All amounts incurred and due to the City at the time of the recording of the final plat must be fully paid by the Developer prior to the City executing and releasing the final plat for recording.
- C. The Developer shall hold the City and its officials, employees, and agents harmless from claims made by itself and third parties for damages sustained or costs incurred resulting from the City's approval of the plat and the development of the Subdivision. The Developer shall indemnify the City and its officials, employees, and agents for all costs, damages, or expenses which the City may pay or incur in consequence of

such claims, including attorneys' fees.

- D. The Developer shall reimburse the City for costs incurred in the enforcement of this Agreement, including reasonable engineering and attorneys' fees.
- E. The Developer shall pay, or cause to be paid when due, and in any event before any penalty is attached, all special assessments referred to in this Agreement. This is a personal obligation of the Developer and shall continue in full force and effect even if the Developer sells one or more lots, the entire Property, or any portion of it.
- F. The Developer shall pay in full all bills submitted to it by the City for obligations incurred under this Agreement within 30 days after receipt. Bills not paid within 30 days shall be assessed a late fee per the City adopted fee schedule. Upon request, the City will provide copies of detailed invoices of the work performed by the City and its consultants.

29. CITY PAYMENTS. City payments shall be made within 30 days of the City's final acceptance of the Improvements, but only if the Developer is not in default of this Agreement. This payment by the City shall be the City's only responsibility with regard to construction of the Improvements and in no case shall act as a waiver of any other right of the City under this Agreement or under applicable laws, ordinances, or rules.

30. SPECIAL PROVISIONS. The following special provisions shall apply to the Subdivision:

- A. The Developer shall implement of all changes and modifications to the Plans requested by the City Engineer in the memorandum addressing Legacy at North Star Fourth Addition Final Plat and PUD Plans dated March 12, 2021.
- B. The Developer shall include in the architectural control guidelines for the Subdivision a requirement that villa lots must utilize four-sided architecture and garages facing the public

rights-of-way must have windows or other architectural features. These requirements must be reviewed and approved by the City.

- C. The Developer must notify all home builders within the Subdivision about possible City outdoor watering restrictions and ensure that all home builders notify all home buyers that the City may impose limits on outdoor water use including no vehicle washing, or the watering of grass or sod. City staff has approved the required notification with the Legacy at North Star Second Addition for use in this phase of the development.
- D. The Developer shall install Traditionaire LED Downlights from Xcel Energy for the Subdivision in lieu of the acorn streetlight with aluminum pole (all black) indicated in the City's Engineering Standards. Streetlights must be located only at intersections and ends of cul-de-sacs.
- E. The Developer must obtain a sign permit from the City Building Official before the installation of any subdivision identification signs.
- F. All public trails shall be located within outlots, at least 30 feet in width and either be dedicated to the City in the plat or an easement in a form acceptable to the City be provided. The title policy to be provided to the City shall insure the City's interests in the property.
- G. The Developer shall enter into a Landscape License Agreement with the City for the maintenance of outlots owned by the homeowners' association and City-owned outlots, rights-of-way, and medians before the release of the final plat by the City for recording.
- H. The Developer shall construct a public trail connecting the Subdivision to the trails of Hamlet on Sunfish Lake. The Developer will not receive park dedication credit for the trail. The Developer shall grant the City an easement over the portion of the trail that is over the Subdivision. The City must approve the form of this easement before releasing the final plat for recording. The easement shall be recorded with the Plat. The trail must be

installed and accepted by the City prior to any building permits for the Subdivision being released.

- I. The Developer shall provide a 30-foot-wide open space buffer along to the northern development line as well as a 50-foot-wide open space buffer along the western line of the Subdivision. The City must approve the form of this buffer or easement before releasing the final plat for recording. The easement shall be recorded with the Plat.

31. MISCELLANEOUS.

- A. The Developer may not assign this Agreement without the written permission of the City Council. The Developer's obligations hereunder shall continue in full force and effect even if the Developer sells one or more lots, the entire Property, or any portion of it.
- B. Retaining walls that require a building permit shall be constructed in accordance with plans and specifications prepared by a professional engineer licensed by the State of Minnesota. Following construction, a certification signed by the design engineer shall be filed with the City Engineer evidencing that the retaining wall was constructed in accordance with the approved Plans. All retaining walls identified on the Plans or by special conditions referred to in this Agreement shall be constructed before any other building permit is issued for a lot on which a retaining wall is required to be built.
- C. Homeowners' association declarations, covenants, and restrictions and other documents related to the homeowners' association shall be submitted to the City before recording of the final plat for review and approval by the City Attorney.
- D. The Developer shall take out and maintain or cause to be taken out and maintained until six months after the City has accepted the public Subdivision Improvements, public liability and property damage insurance covering personal injury, including

death, and claims for property damage which may arise out of Developer's work or the work of its subcontractors or by one directly or indirectly employed by any of them.

Limits for bodily injury and death shall be not less than \$500,000 for one person and \$1,500,000 for each occurrence; limits for property damage shall be not less than \$200,000 for each occurrence; or a combination single limit policy of \$1,500,000 or more. The City shall be named as an additional insured on the policy, and the Developer shall file with the City a certificate of insurance evidencing coverage prior to the City signing the plat. The certificate shall provide that the City must be given 30 days' advance written notice of the cancellation of the insurance.

- E. Third parties shall have no recourse against the City under this Agreement.
- F. If any portion, section, subsection, sentence, clause, paragraph, or phrase of this Agreement is for any reason held invalid, such decision shall not affect the validity of the remaining portion of this Agreement.
- G. The action or inaction of the City shall not constitute a waiver or amendment to the provisions of this Agreement. To be binding, amendments or waivers shall be in writing, signed by the parties and approved by written resolution of the City Council. The City's failure to promptly take legal action to enforce this Agreement shall not be a waiver or release.
- H. This Agreement shall run with the land and may be recorded against the title to the Property at the Developer's expense. The Developer covenants with the City, its successors and assigns, that the Developer has fee title to the Property being final platted and has obtained consents to this Agreement, in the form attached hereto, from all parties who have an interest in the Property, including, but not limited to, mortgagees; that there are no unrecorded interests in the Property being final platted; and that the Developer will indemnify and hold the City harmless for any

breach of the foregoing covenants.

- I. Each right, power, or remedy herein conferred upon the City is cumulative and in addition to every other right, power, or remedy, express or implied, now or hereafter arising, available to City, at law or in equity, or under any other agreement, and each and every right, power, and remedy herein set forth or otherwise so existing may be exercised from time to time as often and in such order as may be deemed expedient by the City and shall not be a waiver of the right to exercise at any time thereafter any other right, power, or remedy.
- J. The Developer represents to the City that the Subdivision and the Subdivision Improvements comply or will comply with all City, County, metropolitan, state, and federal laws and regulations, including but not limited to: subdivision ordinances, zoning ordinances, and environmental regulations. If the City determines that the Subdivision is not in compliance, the City may, at its option, refuse to allow construction or development work in the Subdivision until it is brought into compliance. Upon the City's demand, the Developer shall cease work until there is compliance.

32. EVENTS OF DEFAULT. The following shall be "Events of Default" under this Agreement and the term "Event of Default" shall mean, whenever it is used in this Agreement, any one or more of the following events:

- A. Subject to unavoidable delays, failure by the Developer to commence and complete construction of the public Subdivision Improvements pursuant to the terms, conditions and limitations of this Agreement.
- B. Failure by the Developer to substantially observe or perform any material covenant, condition, obligation, or agreement on its part to be observed or performed under this Agreement.

33. REMEDIES ON DEFAULT. Whenever any Event of Default occurs, the City, subject to any rights of third parties agreed to by the City pursuant to this Agreement, or otherwise by written, executed instrument of the City, may take any one or more of the following:

- A. The City may suspend its performance under the Agreement until it receives assurances from the Developer, deemed adequate by the City, that Developer will cure its default and continue its performance under the Agreement. Suspension of performance includes the right of the City to withhold permits including, but not limited to, building permits.
- B. The City may initiate such action, including legal or administrative action, as is necessary for the City to secure performance of any provision of this Agreement or recover any amounts due under this Agreement from the Developer, or immediately draw on the Security, as set forth in this Agreement.

34. ENFORCEMENT BY CITY; DAMAGES. The Developer acknowledges the right of the City to enforce the terms of this Agreement against the Developer, by action for specific performance or damages, or both, or by any other legally authorized means. In the event of a default by the Developer as to construction or repair of any of the Subdivision Improvements or any other work or undertaking required by this Agreement, the City may, at its option, perform the work and the Developer shall promptly reimburse the City for any expense incurred by the City. This Agreement is a license for the City to act, and it shall not be necessary for the City to seek an order from any court for permission to enter the Subdivision for such purposes. If the City does such work, the City may, in addition to its other remedies, levy special assessments against the land within the Subdivision to recover the costs thereof. For this purpose, the Developer, for itself and its successors and assigns, expressly waives any and all procedural and substantive objections to the special assessments, including, but not limited to, hearing requirements, and any claim that the assessments exceed the benefit to the land so assessed. The Developer, for

itself and its successors and assigns, also waives any appeal rights otherwise available pursuant to Minnesota Statutes Section 429.081.

The Developer also acknowledges that its failure to perform any or all of the Developer's obligations under this Agreement may result in substantial damages to the City; that in the event of default by the Developer, the City may commence legal action to recover all damages, losses, and expenses sustained by the City; and that such expenses may include, but are not limited to, the reasonable fees of legal counsel employed with respect to the enforcement of this Agreement.

35. WARRANTY. During the warranty period, the Developer warrants that all Subdivision Improvements will be free from defects and that they will continue to meet all technical specifications and standards. During the warranty period, the Developer agrees to repair or replace any Subdivision Improvement, or any portion or element thereof, which shows signs of failure, normal wear and tear excepted. If the Developer fails to repair or replace a defective Subdivision Improvement during the warranty period, the City may repair or replace the defective portion and may use the Security to reimburse itself for such costs. The Developer agrees to reimburse the City fully for the cost of all Subdivision Improvement repair or replacement if the cost thereof exceeds the remaining amount of the Security. Such reimbursement must be made within 45 days of the date upon which the City notifies the Developer of the cost due under this paragraph. The Developer hereby agrees to permit the City to specially assess any unreimbursed costs against any lots in the Subdivision which have not been sold to home buyers if the Developer fails to make required payments to the City. The Developer, on behalf of itself and its successors and assigns, acknowledges the benefit to the lots within the Subdivision of the repair or replacement of the Subdivision Improvements and hereby consents to such assessment and waives the right to a hearing or notice of hearing or any appeal thereon under Minnesota Statutes, Chapter 429.

- A. The required warranty period for all work relating to the public sewer and water shall be two years from the date of final written City acceptance of the work.
- B. The required warranty period for all work relating to street construction, including concrete curb and gutter, sidewalks and trails, materials, and equipment shall be subject to one year from the date of final written acceptance of the work.
- C. The required warranty period for sod, trees, and landscaping is two years from the date of final written City acceptance of the installation.

36. SUMMARY OF SECURITY REQUIREMENTS. To guarantee compliance with the terms of this Agreement, payment of special assessments, payment of the costs of all public Subdivision Improvements, and construction of all public Subdivision Improvements, the Developer shall furnish the City with an irrevocable letter of credit or a cash escrow or a combination of a cash escrow and letter of credit (the "Security") in the amount of \$1,427,621. The bank originating the letter of credit shall be determined by the City to be solvent and creditworthy. The letter of credit shall substantially be in the form attached to this Agreement and must be approved by the City. The amount of the Security was calculated as itemized on **Exhibit C**. If at any time the City reasonably determines that the bank issuing the letter of credit no longer satisfies the City's requirements regarding solvency and creditworthiness, the City shall notify the Developer and the Developer shall provide to the City within 45 days a substitute for the letter of credit from another bank meeting the City's requirements. If the Developer fails to provide the City within 45 days with a substitute letter of credit from an issuing bank satisfactory to the City, the City may draw under the existing letter of credit.

This breakdown is for historical reference; it is not a restriction on the use of the Security. The City may draw down the Security, without notice, for any violation of the terms of this Agreement or if the Security is allowed to lapse prior to the end of the required term. If the required public Subdivision Improvements are not completed at least 30 days prior to the expiration of the

Security, the City may also draw it down. If the Security is drawn down, the proceeds shall be used by the City to cure the default.

37. REDUCTION OF SECURITY. Upon written request by the Developer and upon receipt of proof satisfactory to the City Engineer that work has been completed in accordance with the approved Plans and the terms of this Agreement and that all financial obligations to the City have been satisfied, the City Engineer may approve reductions in the Security in the following instances:

- A. Upon completion of grading operations, including temporary site restoration. The Developer must submit an as-built grading survey to the City that at a minimum establishes the as-built grades at all lot corners and downstream drainage conveyance systems and storm water ponds. Upon inspection of the site and approval of the as-built survey by the City, 100 percent, or \$0, of the Security associated with grading may be released. This Security reduction does not include amounts related to erosion and sedimentation control.
- B. Up to 75 percent of the Security associated with the itemization on **Exhibit C** may be released upon completion of the following key milestones of the project as determined by the City Engineer:
 - 1. Construction Categories 2 and 3: The amount of \$366,155 may be released when all sanitary sewer and watermain utilities have been installed, all testing and televising has been successfully completed, sanitary sewer as-built inverts have been verified, and the utilities are considered ready for use by the City Engineer.
 - 2. Construction Categories 4 and 5: The amount of \$584,771 may be released when all streets, sidewalks, and storm sewer have been installed and tested, and have been found to be complete to the satisfaction of the City

Engineer including all corrective work for any identified punch list items and including verification of storm sewer as-built inverts, but not including the final wear course.

3. Construction Categories 6-10 and 15-18: The amount of \$39,164 may be released when all remaining Developer's obligations under this Agreement have been completed including: (1) bituminous wear course; (2) street lighting and private utilities; (3) trails; (4) bio retention facilities; (5) iron monuments for lot corners have been installed; (6) all financial obligations to the City satisfied; (7) the required "record" plans in the form of the City standards have been received and approved by the City; and (8) the public Subdivision Improvements are accepted by the City Engineer and the City Council.

4. Construction Category 11: The amount of \$45,375 may be released when all Builder Landscaping Improvements have been installed to the satisfaction of the City including all corrective work for any identified punch list items.

5. Construction Category 12: The amount of \$35,250 may be released when all Developer Landscaping Improvements have been installed to the satisfaction of the City including all corrective work for any identified punch list items.

C. Twenty-five percent of the original Security amount, excluding grading and landscaping improvements shall be retained until: (1) all Subdivision Improvements have been fully completed and accepted by the City, including all corrective work and warranty punch list items; (2) all financial obligations to the City have been satisfied; and (3) the warranty period has expired.

- D. Twenty-five percent of the original Security amount associated with Developer Landscaping Improvements shall be retained by the City until: (1) all Developer Landscaping Improvements have been fully completed and accepted by the City, including all corrective work and warranty punch list items being completed by the Developer; (2) all financial obligations to the City have been satisfied; and (3) the warranty period has expired.
- E. Twenty-five percent of the original Security amount associated with Builder Landscaping Improvements shall be retained by the City until: (1) all Builder Landscaping Improvements have been fully completed and accepted by the City, including all corrective work and warranty punch list items being completed by the Developer; (2) all financial obligations to the City have been satisfied; and (3) the warranty period has expired.
- F. In addition to the above project milestone based Security reductions, the Developer may submit a written request and upon receipt of proof satisfactory to the City Engineer that work is progressing in accordance with the approved Plans and the terms of this Agreement and that all financial obligations to the City have been satisfied, the City Engineer may approve a one-time reduction in the Security for Construction Categories 2-5 in an amount not to exceed 50 percent of the initial Security amount. This one-time Security reduction does not apply to Categories 4-5 if boulevard sidewalks or trails have not been installed.
- G. It is the intent of the parties that the City at all times have available to it Security in an amount adequate to ensure completion of all elements of the Subdivision Improvements and other obligations of the Developer under this Agreement, including fees or costs due to the City by the Developer. To that end and notwithstanding anything herein to the contrary, all requests by the Developer for a reduction or release of the Security shall be evaluated by the City in light of that principle.

38. SUMMARY OF CASH REQUIREMENTS. The following is a summary of the cash requirements under this Agreement which must be paid to the City prior to recording the final plat:

Sewer Availability Charge (SAC):	\$186,000
Water Availability Charge (WAC):	\$186,000
Park Dedication:	\$224,447.58
AUAR Fee:	\$14,260
Special Assessments Due:	\$0
Street Light Operating Fee:	\$387
City Base Map Upgrading (\$25.00 per REU):	\$1,550
City Engineering Administration Escrow:	\$50,000
TOTAL CASH REQUIREMENTS:	\$662,644.58

39. NOTICES. Required notices to the Developer shall be in writing, and shall be either hand delivered to the Developer, its employees or agents, or mailed to the Developer by certified mail at the following address: 10850 Old County Road 15, Suite 200, Plymouth, MN 55441. Notices to the City shall be in writing and shall be either hand delivered to the City Administrator, or mailed to the City by certified mail in care of the City Administrator at the following address: Lake Elmo City Hall, 3880 Laverne Avenue N, Suite 100, Lake Elmo, Minnesota 55042.

40. EVIDENCE OF TITLE. The Developer shall furnish the City with evidence of fee ownership of the property being platted by way of a title insurance policy dated not earlier than 30 days prior to the execution of the plat.

41. COMPLIANCE WITH LAWS. The Developer agrees to comply with all laws, ordinances, regulations, and directives of the state of Minnesota and the City applicable to the Subdivision. This Agreement shall be construed according to the laws of the Minnesota.

42. SEVERABILITY. In the event that any provision of this Agreement shall be held invalid, illegal, or unenforceable by any court of competent jurisdiction, such holding shall pertain only to such section and shall not invalidate or render unenforceable any other provision of this Agreement.

43. NON-WAIVER. Each right, power, or remedy conferred upon the City by this Agreement is cumulative and in addition to every other right, power, or remedy, express or implied, now or hereafter arising, or available to the City at law or in equity, or under any other agreement. Each and every right, power, and remedy herein set forth or otherwise so existing may be exercised from time to time as often and in such order as may be deemed expedient by the City and shall not be a waiver of the right to exercise at any time thereafter any other right, power, or remedy. If either party waives in writing any default or nonperformance by the other party, such waiver shall be deemed to apply only to such event and shall not waive any other prior or subsequent default.

44. COUNTERPARTS. This Agreement may be executed simultaneously in any number of counterparts, each of which shall be an original and shall constitute one and the same Agreement.

FORM OF IRREVOCABLE LETTER OF CREDIT

No. _____

Date: _____

TO: City of Lake Elmo

Dear Sir or Madam:

We hereby issue, for the account of _____ (Name of Developer) and in your favor, our Irrevocable Letter of Credit in the amount of \$ _____ available to you by your draft drawn on sight on the undersigned bank.

The draft must:

- a) Bear the clause, "Drawn under Letter of Credit No. _____, dated _____, 20____, of (Name of Bank)" _____;
- b) Be signed by the Mayor or City Administrator of the City of Lake Elmo.
- c) Be presented for payment at _____ (Address of Bank), on or before 4:00 p.m. on November 30, 20____.

This Letter of Credit shall automatically renew for successive one-year terms unless, at least forty-five (45) days prior to the next annual renewal date (which shall be November 30 of each year), the Bank delivers written notice to the Lake Elmo City Administrator that it intends to modify the terms of, or cancel, this Letter of Credit. Written notice is effective if sent by certified mail, postage prepaid, and deposited in the U.S. Mail, at least forty-five (45) days prior to the next annual renewal date addressed as follows: City Administrator, City Hall, 3880 Laverne Ave. N., Suite 100, Lake Elmo Minnesota 55042 and is actually received by the City Administrator at least thirty (30) days prior to the renewal date.

This Letter of Credit sets forth in full our understanding which shall not in any way be modified, amended, amplified, or limited by reference to any document, instrument, or agreement, whether or not referred to herein.

This Letter of Credit is not assignable. This is not a Notation Letter of Credit. More than one draw may be made under this Letter of Credit.

This Letter of Credit shall be governed by the most recent revision of the Uniform Customs and Practice for Documentary Credits, International Chamber of Commerce Publication No. 500.

We hereby agree that a draft drawn under and in compliance with this Letter of Credit shall be duly honored upon presentation.
