ISSUE BEFORE COUNCIL: Should the City Council declare costs to be assessed and call a final assessment hearing for the Old Village Phase 5 and 6 Street and Utility Improvements project to be held on October 19, 2021?

BACKGROUND: A-1 Excavating was awarded a construction contract on March 16, 2021 to complete the Old Village Phase 5 and 6 Street Drainage, and Utility Improvements The project is currently under construction with a milestone 1 completion date of October 15, 2021, milestone 2 completion date of October 14, 2022, substantial completion date of June 30, 2023 and final completion date of July 28, 2023.

PROPOSAL DETAILS/ANALYSIS: Consistent with previous project phases, the Old Village Phase 5 and 6 Street and Utility Improvements will be partially financed by imposing special assessments against the benefiting properties. Special assessments are levied in accordance with Minnesota Statutes Chapter 429 and consistent with the City's Special Assessment Policy and the Old Village Sewer Assessment Policy. As part of the assessment procedures, the Council must declare the amount to be assessed against the benefitting properties and Call the Hearing on the Proposed Assessment for these improvements. The Assessment Hearing is proposed for October 19, 2021. The Final Assessment Roll must be certified to the County Auditor by November 30, 2021.

The final assessment roll for the project is attached as part of the council packet. The proposed final assessments are generally consistent with the adopted preliminary assessment roll, with the exceptions outlined below, and were determined in accordance with the City's Special Assessment Policies. The street and storm sewer improvements will be levied over a 15-year period, the sanitary sewer improvements will be levied over a 20-year period. Assessments will be levied over a 20-year period. Assessments will be charged an interest rate of 3.25% (1% over the anticipated bond rate for the project).

There are three unique assessment circumstances shown on the assessment roll. In accordance with the City assessment policy there is one property along the project that is being assessed 50% of the unit assessment because they have a driveway access to two different streets and will be assessed for improvements along each street. Two other properties are proposed to be assessed 2-unit assessments since the property can be subdivided under the current zoning and land use designations.

Some changes in the proposed assessments have been made from the preliminary assessment roll to the final assessment to account for the following property information/updates:

• Met Council's Sewer Availability Charge (SAC) determinations on commercial and apartment building properties resulted in the reduction of overall SAC units; reducing the unit assessments

- for 2 4-Plex apartment buildings from 4 SAC units to 3 SAC units, and reducing a commercial property from 16 SAC units to 13 SAC units. Met Council SAC determination worksheets are on file with the city.
- Revised street and storm sewer assessments were calculated using an adjusted front footage for commercial properties along Upper 33rd Street and for 3394 Lake Elmo Avenue based on direction provided by the City Council at the workshop held on June 8, 2021.

<u>Lake Elmo Avenue Private Driveway</u>: The scope of work included in the Old Village Phase 5 and 6 Street and Utility Improvements includes the extension of sanitary sewer and public watermain along a private driveway, extending east of Lake Elmo Avenue to serve 5 platted properties. Three (3) of the properties have existing residential homes and the other two properties remain undeveloped. An exhibit is attached for reference.

At the request of the City and property owners, the Minnesota Department of Health (MDH) tested the private wells of the three existing homes for PFAS levels. Test results show one of the three exceeded the current health-based limits. Due to the positive test result, city staff submitted a request to the MPCA for 3M Settlement Grant Funds to cover the watermain extension and connection to city water for these properties. The request was reviewed and funding was denied.

Construction of this portion of the improvement is scheduled to occur in 2022, but the current assessment roll identifies a \$27,000 assessment for City water for each of the 5 parcels. The \$27,000 assessment does not include the private water service connection costs and fees. If water is extended in 2022, each parcel will be assessed. The 2 undeveloped parcels would be eligible to defer the assessments until such time that the property develops. Staff is seeking direction on proceeding with the installation of the public watermain along this private driveway and certifying assessments as proposed, or eliminating the improvements from the scope of work. These properties are within the City's Municipal Urban Service Area (MUSA) designating areas intended to be served by public sanitary sewer and water.

FISCAL IMPACT: The estimated total cost for the project is \$9,082,705; including \$3,533,500 for the street, drainage, and storm sewer improvements, \$4,032,905 for the sanitary sewer improvements, and \$1,516,300 for the water system improvements. Of these costs, \$2,393,042 will be funded through special assessments.

RECOMMENDATION: Staff is recommending that the City Council approve a Resolution Declaring Costs to be Assessed and Calling for a Hearing on the Proposed Assessment, with the assessment hearing to be scheduled for the October 19 city council meeting. Staff is also seeking direction on proceeding with the installation of the public watermain along the private driveway, east of Lake Elmo Avenue, and certifying assessments as proposed, or eliminating the improvements from the scope of work. The suggested motions to approve this action(s) is as follows:

"Move to approve Resolution No. 2021-104; A Resolution Declaring Costs to be Assessed and Calling for the Hearing on the Proposed Assessment for the Old Village Phase 5 and 6 Street and Utility Improvements."

And

"Move to direct Staff to continue with the installation of the public watermain along the private driveway, east of Lake Elmo Avenue, and provide notice of the proposed assessments to the benefitting parcels."

"Move to direct Staff to eliminate through change order, the installation of the public watermain and corresponding assessment along the private driveway, east of Lake Elmo Avenue, from the scope of the Improvements."
