# City of Lake Elmo Irrigation Zones

Applications are still being accepted for local businesses to participate in Lake Elmo's National Night Out event on August 1st. This event is organized by the Lake Elmo National Night Out Coordinating Committee and is so much fun. Don't miss out on this chance to connect with the community! Please contact Molly Brendmoen (mbrendmoen@msn.com) if you are interested in participating.

### Water Rebate Program

The City of Lake Elmo, in partnership with the Metropolitan Council, is offering a rebate program for purchases of eligible water efficient products. The goal of the water efficiency grant program is to improve municipal water use. This funding has enabled Lake Elmo to provide a rebate to current water customers who replace existing devices with specified water efficient products. Qualifying purchases are eligible for a rebate on your water bill. More information is available on the City's website via the link below.

**Rebate**

# Lake Elmo Farmers Market

***The Lake Elmo Farmers Market runs every Saturday thru September 2nd, 9-1pm. Located @Lake Elmo Elementary.***

\*Market will be open rain or shine unless inclement weather of high winds or lightning.

\*Did you try the NEW freshly Squeezed Lemonade from *Fat Louie's MN* last week?! We are excited about our incredible assortment of vendors and all the new ones coming in! We would still LOVE to add a cheese vendor to our growing market (Message us if you know one!)

---

In 2024 The Lake Elmo Farmers Market will be celebrating their **10th season!!**

We are working on gathering recipes for a Lake Elmo Farmers Market cookbook, to be published and available for purchase in 2024. Stop by the market table to pickup a blank recipe form OR drop off your favorite recipe. Be sure to include your name and city. We will be collecting them throughout the 2023 season at the market table.

For more information contact Jill (market manager) 651-261-4493 or find us on Facebook @LakeElmoFarmersMarket

## Court Improvement Projects

Court improvement projects are underway! At Tabyln Park, the two tennis court surfaces will be completely removed and replaced with new playing surfaces. The courts will be striped to accommodate one tennis court and four pickle ball courts.

At Pebble Park, the tennis courts will also be completely renovated and the new surface will be striped to accommodate one tennis court and

six pickle ball courts.

Both locations will also see additional updated amenities to include paved trail access, a rebounding wall and benches. The lighting will also be updated to LED with new control boxes that will provide a significant cost savings on electricity.

Work is expected to be complete in October 2023.

## Park and Court Reservations

City parks and courts are in high demand this time of year. Did you know you can reserve use of a court, ball field or park shelter? To access all reservations, please visit the website via the link below and use the drop down menu on the top right side to move between park calendars. The city's park use policy can also be found on the reservation page.

## **Reduce-Reuse-Recycle!**

It is that time of year again when we start thinking about spring cleaning. Are you sure about what is trash and what can be recycled, and where to take it? Washington County has a new interactive disposal directory located here: [Disposal Directory](#) Try it out! It is a great tool for identifying what and where you can donate, recycle, or dispose of unwanted items.

## Reminder: No grass clippings in the street!

Did you know that grass clippings contain high amounts of nutrients like nitrogen and phosphorus? When it rains, clippings left in the street get washed into storm sewers that lead to ponds, lakes, rivers and streams. There, the nutrients promote algae growth which makes the water stinky, green, and sometimes toxic. Clippings can also clog storm drains, increasing the risk of street flooding.

Here's a simple trick to solve the problem. Turn your mower so the clippings blow into the lawn instead of the street when you're mowing close to the road! The clippings will break-down naturally and provide free fertilizer for your lawn, saving you time and money. You can also bag and compost your clippings to fertilize your gardens in the future.

**Cleaner streets = cleaner water.** Do your part to keep the green on our lawns and out of our water!

Program. This program began in 2010 for cities and counties to report on at least 10 performance measures annually as a way to aid residents, taxpayers, and state and local elected officials in determining the efficacy of counties and cities in providing services and measure residents' opinions of those services.

The Sally Manzara Interpretive Nature Center is open every day  
Visit <https://sminc-lake-elmo.org/> for details.

The Sally Manzara Interpretive Nature Center in Lake Elmo's Sunfish Lake Park is operated by a non-profit organization for the benefit of the entire community. We offer programs and events for people of all ages and have "adopted" the Park in the City's program. This work is all funded by donations. Thank you for your support!

Ever thought of helping out at the SMINC? The SMINC couldn't run without the help of our dedicated volunteers. Whether you like the idea of giving guided hikes, you'd like to work the front desk, or the thought of cutting and edging the grass around the center appeals to you, we can use your help! Just stop in anytime during regular business hours and ask how you can help!

- Summer is here, so check out our Summer Camps! Several sections are already closed and have waiting lists, but we have lots of exciting camp opportunities open. Our Outdoor Adventures camp begins July 10, and has a couple slots left. Don't wait! <https://sminc-lake-elmo.org/summer-camp-registration/>

- Chasing Dragons w/ Jeff Fischer: The Sally Manzara Interpretive Nature Center at Lake Elmo's Sunfish Lake Park welcomes Jeff Fischer on Thursday, July 20 at 7 p.m. to talk all about the life of dragonflies, one of the oldest flying creatures on earth, whose ancestry stretches back around 300 million years. Discover the unique and interesting attributes of dragonflies that have helped them become the most proficient predator on the planet. Learn about the life stages of incomplete metamorphosis and how dragonflies spend the majority of their life under water. The cost of the event is \$10, and preregistration is required. To register, go to: <https://sminc-lake-elmo.org/event-descriptions/>
