Planning Commission  
East Oakdale  
Lake Elmo, Minnesota

ATTENTION: Chairman Milt Klohn

SUBJECT: Request for Building Permit to Move Garage

Gentlemen:

The following reasons are listed to get your approval to obtain a moving permit from Martin Eberhart, Building Inspector of East Oakdale Township area, to move a one and one-half (1-1/2) car garage approximately one-half (1/2) mile onto agricultural land (pasture) in front of my home to house two (2) horses:

1. Garage has been purchased by undersigned, along with concrete blocks for foundation.
2. Garage is in sound shape and will be painted after moved to new location requested.
3. Mover has been contacted, looked at garage, and is willing to move garage for me upon request.
4. Garage would have been moved two (2) months ago without any questions asked, however, it was casually mentioned to me that a building permit might be required to move the garage.
5. No building presently exists in pasture and shelter is definitely necessary during winter months.
6. A. (Bob) Schiltgen, owner of pasture, has given his approval to members of East Oakdale Town Board and myself, to move garage in pasture.
7. Neighbors have consented to moving garage in pasture.
8. My wife and four (4) year old son will be able to care for the horses since the house will be approximately 40-50 yards from the converted garage.

9. Without shelter in pasture, horses would most likely have to be sold. Before selling horses, we will most likely have to move out of the area.

I have consulted the East Oakdale Town Board with the result that the Planning Commission must make the final decision.

Please allow me to show you the garage, location in pasture, accessibility and ideal set-up for my family and for the horses.

My wife, myself and my son most sincerely request and urge your approval of a building permit for a simple one (1) hour garage moving effort which will resolve all problems and actually improve the looks of the pasture by having a newly painted, well-constructed garage/horse barn to view.

Please advise.

Very truly yours,

  
C. E. Schoener
