

EAST OAKDALE PLANNING COMMISSION

Next meeting - June 15 at 8:30 PM

Meeting of June 1, 1966

Present: Milt Klohn, Russ Morgan, John Beske, Bill Lundquist

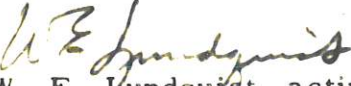

There was a motion by Russ Morgan, seconded by J. Beske that the Town Board be requested to require that all building permits for structures other than single family residences must be approved by the Town Board. This is a proposal of Carl Dale to serve as an interim measure to control Commercial Developments and the like. The motion passed.

Regarding the Wm. Dale property, the planning commission prefers rezoning the NE quadrant only to the present commercial clarification, and this should be done only if the above change in building permits is made.

It was moved by J. Beske, seconded by R. Morgan, that the Township approve the model subdivision regulations subject to the provision that existing plotted lots which meet present lot requirements for single family residences will be allowed building permits in the future. Motion carried.

Regarding the United Properties request for rezoning it was decided that the acting secretary draft an answer to their request, in accordance with Carl Dale's recommendations, for review by the Town Board.

Meeting adjourned.

W. E. Lundquist, acting secretary
