Emergency Management Tabletop Exercise

Representatives from Emergency Preparedness Resource Group (EPRG) presented an emergency scenario - an F4 tornado that damaged much of the city. The room was separated into two groups (one for CERTs and the other for city council and staff). Both groups went through the exercise and discussed how their particular departments or neighborhoods would respond to the emergency.

The workshop concluded at 8:30 p.m.

Respectfully submitted,
Justin Miller
City Administrator
